

TESTING SERVICES

Our trained and licensed psychologists receive referrals from physicians, schools, lawyers, courts, and the general public to provide effective and confidential testing services.

MASTERPEACE can assist you with the following tests:

1. Achievement Testing: Designed to measure a person's level of skill, accomplishment, or knowledge in a specific area.
2. Intelligence Testing: Frequently involves use of one of the age-appropriate Wechsler Scales of Intelligence, which examine verbal, visual-spatial, memory, visual-motor and related skills.
3. Bariatric Evaluations: Pre- operative psychological assessment of bariatric candidates.
4. Personality Assessment: Refers to the measuring through testing of one's current status regarding psychological constructs or concepts such as depression, hypochondria, criminality, masculinity/femininity, paranoia, anxiety, schizophrenia, mania, introversion/extroversion and others.
