The Lord talked about "The 1%."

Some year back, it came to me that the 99% of the attainment (ONENESS; SACRIFICIAL) may be the relatively easy part (relative to the difficulty of the 1%). This is what the Lord talked about this morning. He said our ministry will be marked by the 1%. The 1% will be the catalyst for our ministry - which is at hand - (any day now). He told me to use the foreground in 2017 as the line of demarcation for the 1% beginning.

In relation to the 1%, the Lord used words like complete, absolute, exactly, etc as separate. He talked of it as exceedingly rare. He pointed out as clarity that the 99% is by no means common, but that the additional 1% of journey is exponentially rarer yet.

The power that is to come upon me (additional power) is validation, of this 1%.

The Lord told me it is what sets me apart.
