

Portable Restroom Trailers

Each unit has stainless steel sinks, porcelain toilets, large vanity mirrors, counter tops and air conditioners.

The Jag Cottage is our top of the line unit. This is a luxury, two room unit that features distinctive wainscoting, crown molding, wood grain flooring, and has individual toilet stalls with closures of 6-panel wood doors.

The women's room has two sinks for washing hands. The double sinks are set in a white cabinet with molding on the cabinet door. There are four bathroom stalls with each having closures of the 6-panel wood doors.

The men's room has one bathroom with one toilet and a closure of a six panel wood door and also has two urinals. This room also has a counter top with two individual sinks. The double sinks are set in a white cabinet with molding on the cabinet door.

The Jag Cottage will get about 2000 flushes. The unit requires a 30 amp electrical service to operate.

The Urban Restroom is our brand new unit. The Urban Restroom is a two room unit and the ladies' room has two toilets separated by stalls, and also has a large counter top with a stainless steel sink.

The men's room has one toilet stall and three urinals. There is also a stainless steel sink. This unit will service 1500 flushes.

Each bathroom will be fully stocked with paper towels, soap and toilet paper and ready for use.

Our Jag Commercial is a two room unit. This unit has one men's room and one women's room. The women's room has two toilets separated by individual stalls. There is a community double sink with counter top and a mirror in this room. The Men's room has three urinals, one toilet with a stall and one community sink with counter top and a mirror. This is a larger white unit and cream colored cabinets inside. This unit will get about 2000 flushes and it requires a 30 amp electrical service to operate.

Comfort Elite III has three bathrooms, one men's room and two women's rooms and is air conditioned with flush able toilets. It will get about 1300 flushes and like the Comfort Elite II it require a 20 amp electrical service.

The Comfort Elite II and Alpha II both rent for \$800.00 for your event. These units require only a 20 amp electrical service. They are both air conditioned and have completely flush able toilets in each of its two bathrooms. These units both get about 900 flushes. The Alpha II is a white trailer with white cabinets inside. The Comfort Elite II is a gray unit and has the oak cabinets inside.
