

School Safety Conference

Free One-Day Event

Wednesday, October 3, 2018

7:30 am to 4:00 pm

WCA Regional Training Center

2220 Bryan Stock Trail

Casper, Wyoming 82601

Opening Remarks - **Shelby G. Carlson, P.E. - Administrator**
(Wyoming State Construction – School Facilities Division)

Who Should Attend?

District Administrators, School Administrators, Police & Fire Departments, Transportation Directors, Parties in Charge of Safety and Emergency Managers

The Wyoming State Construction Department, Wyoming School Resource Officers Association, and Facility Engineering Associates, PC invite you to heighten your safety awareness by attending a gathering of experts in the field of school safety and physical security. **At no cost to you**, you can learn how to enhance the safety and security of your school facility on a day-to-day basis and long term. This vital information will be practical and easy to apply, and there will be ample time for you to ask specific questions. Theodore Roosevelt once said “you never have trouble if you are prepared for it.” This statement takes on significant meaning as schools try to ensure the safety of their students in today’s vulnerable world. We hope you will join us to hear from subject matter experts.

Register by 09/28/18 at anthony.hughes@wyo.gov

Please provide the name of your school or agency, along with your name, phone number and email address. If you have any questions, please call Randy Braverman at **224-578-0484**. Also provide the names of any guests who will be joining you.

Guest Speakers and Topics

Craig Scott, President, Value Up

“Craig Scott is a survivor of the Columbine High School shooting. That day he lost two friends next to him under a table in the library and also his sister, Rachel Joy Scott. Through his program, Value Up, Craig has been an effective voice in the media and in schools across the country with a message on the value of human life. His core message is that students who value and respect themselves are more likely to value and respect others and more fully engage in building their futures. Through powerful media and his personal story he will inspire young people and educators and equip them to Value Up.

Paul Timm, PSP, Vice President, Facility Engineering Associates P.C.

Learn how to improve the safety of your learning environment with the effective implementation of Crime Prevention Through Environmental Design principles. We will explore the CPTED principles of “Natural Surveillance,” “Designed Access Control,” “Border Definition,” and “Maintenance.”

Maggie Sims, Project Manager, Rocky Mountain ADA Center

“In this session., participants will receive an overview of the basic principles of the ADA, program Accessibility, Effective Communication, Structural Changes, and Accessible Design.”

Jason Gassaway, End User Consultant, Allegion – **Shelby Howard**, End User Consultant, Allegion “Door Hardware, Security and Safety Solutions.”
