WHO WE ARE

Temple City Schools Foundation (TCSF) is an all-volunteer, non-profit community-based organization whose mission is to support the students of the Temple City Unified School District (TCUSD). TCSF provides funding through grants for teachers and student-led projects to support classroom technology, enrichment programs, visual and performing arts, athletic teams and more. As of January 2018, we have provided more than \$1,100,000.00 in support of TCUSD and its programs.

TCSF SUMMER SCHOOL PROGRAM

TCSF operates the Temple City Summer School Program serving students in grades K-12. TCSF Summer School provides tuition-based courses for credit and non-credit in academics and enrichment. To facilitate the summer program, TCSF rents facilities from TCUSD, as well as equipment and materials owned by the District.

Grades K-8 Enrichment Programs: TCSF offers a mix of academic and enrichment subjects with hands-on exploration to help prepare students for the upcoming year and enhance their learning experience.

Grades 5-8 Band and Orchestra: Music Education continues in the summer with both Intermediate and Advanced courses being offered to grades 5-8. These classes offer an extended time frame for students to improve their skills in a fun filled summer program. If you are not sure if you should enroll for the "Intermediate" or "Advanced" Band or Orchestra classes, please check with Mr. Smith or Mr. Taylor before registering.

Grades 2-9 Musical Theatre: This is a "Junior Musical" performing arts experience. This class is looking for actors, singers, and dancers to perform at Temple City High School as part of the annual Summer Musical Theatre training program

TCSF CANCELLED CLASSES

Unfortunately, classes that do not meet enrollment requirements may be cancelled by TCSF. This process can occur in late May or early June. If TCSF must cancel a class, the parent or the guardian will be notified and have the option to select another available class, or request a refund for the full tuition of the cancelled class. The processing fee is not refundable.

FULL CLASSES & WAITING LISTS

When a class becomes full it will no longer appear as a choice during the process of Registration. Each year there are several classes where enrollment is competitive and the course becomes full shortly after registration begins. If facilities and qualified teachers are available, TCSF will open an additional section on that class. Unfortunately, it is not always possible to meet the demand for a particular class when it becomes full. Occasionally a student will cancel their registration, freeing up a spot in that class. You can add you name to the **Waitlist** for the desired class during registration. This is a first-come, first-served list of requests. You will be notified if a spot becomes available in the class of your choice.

TUITION / Refunds & Withdrawals:

- The cost for each Course or Class includes a **\$50 non-refundable processing fee.**
- Tuition is not pro-rated or discounted for partial attendance.
- Refunds for withdrawing from the program will only be made **PRIOR** to the start date of class.
- TCSF does not offer scholarships
- **Students dismissed for disciplinary reasons will forfeit tuition**

During Registration you will be asked to verify that you have read the Refunds & Withdrawals Policy.

GRADES K-6 CLASSES AT EMPEROR SCHOOL
(GRADES 5-8 BAND & ORCHESTRA at OAK AVENUE Music Room)

Wednesday, June 13th–Thursday, July 12th
(Holiday July 4th & 5th)

MONDAY – THURSDAY

SESSION 1 - 7:50 – 9:40 a.m.

SESSION 2 - 9:55 – 11:45 a.m.

(Recess 9:40-9:55 a.m.)

GRADE 1

ALL ABOUT ANIMALS

Session 1 7:50-9:40 am / Session 2 9:55-11:45 am

Materials Fee-\$15

In this class students will have fun learning about a wide variety of amazing creatures found around the world! Integrating the Next Generation Science Standards, students will investigate animal behavior, biology, and habitats. Every day we will focus on a different animal, Writing, reading, arts & crafts, music, geography, and games related to animals will be included in our daily lessons.

CHARACTERS ON PARADE Session 2 9:55-11:45 am

Materials Fee-\$15

The students will explore various types of literature, participate in journaling activities, and language arts centers. They will create many fun projects relating to the literature that is introduced. Students will also learn to blend, segment, and read some CVC and high frequency words so that they will be ready for first grade.

MAGNIFICENT MATH Session 1 7:50-9:40 am

Materials Fee-\$15

Children will participate in many Common Core math activities, which include exploring number sense, graphing, beginning money, patterning, measuring, and exploring geometric shapes. They'll participate in many exciting Math Centers where students will be able to take part in hands-on learning.

GRADES 2-3

COMMON CORE READING & WRITING

Session 1 7:50-9:40 am / Session 2 9:55-11:45 am

Materials Fee-\$10

This class will focus on the Common Core Writing standards. Each week we will learn about the following text types: Opinion, Informative/Explanatory, Narrative, Friendly Letter, and Review. Students will make a connection to the text and go through the writing process. Topics will be determined based on the students' interests.

KINDERGARTEN

LOOK OUT KINDERGARTEN, HERE I COME!

Session 1 7:50-9:40 am / Session 2 9:55-11:45 am

Materials Fee-\$5

Is your child starting Kindergarten in the fall? Are they nervous or shy about starting school? Does your child speak a language other than English? If so, this is the class for your child.

“Look Out Kindergarten” is designed to help orient incoming student to the routines and activities they will experience in Kindergarten. We will focus on daily routines and schedules, small and large motor skills, language development, sharing with others, and building responsibility. Students will paint, cut and glue, practice writing their names and numbers, and counting.

Standards addressed include following oral directions, communicating using complete sentences, identifying rhyming words, identifying the alphabet using capital and lower case letters, counting to 30, identifying shapes, and sorting and classifying.

ROBOT ADVENTURES: AN INTRODUCTION TO ROBOTICS

Session 1 7:50-9:40 am / Session 2 9:55-11:45 am

Materials Fee-\$25

Join us this summer as we construct simple machines to help us overcome obstacles, develop coding skills so we can navigate through difficult terrain, and design our own robot to help us complete additional tasks. This class incorporates science and math in a fun, engaging environment to promote real world skills such as problem solving, collaboration, and project management. We will use the Pro Bot, the Bristle Bot, and our own DIY simple machines.

THE WIZARDS OF MATH Session 1 7:50-9:40 am

Materials Fee-\$10

Let's go on a journey of number-filled fun as we explore math in a project-based environment. Number sense, geometry, algebraic thinking, and problem solving concepts will be taught, and students will be given opportunities to apply their knowledge to real world situations. Math games and centers will be used to reinforce skills and clever brainteasers will challenge and stretch students thinking.

GRADE 3

MATH NINJAS Session 2 9:55-11:45 am

Materials Fee-\$8

Do you like to solve problems? Do you have ninja-like skills in math and want to karate chop problems? Then this is the course is for you! This course is designed to teach the concepts of third grade common core math to incoming third grade students through hands-on activities, investigative exploration, project-based inquiry, and games.

GRADES 4-5

MIGHTY MATH Session 1 7:50-9:40 am

Materials Fee-None

Unleash your mathematical talent within the context of enjoyable hands-on activities. Students will reinforce basic skills and enhance higher-level math thinking. Through a rotating schedule of activities, such as direct instruction, group/partner work, student mini-book making, realistic measuring during a cooking activity, board and card games, and further use of hands-on materials, students will create

a deeper level of math understanding. Learning outcomes enhance problem solving and computation skills, increase the ability to recognize variables and symbols and solve math expressions and equations, promote understanding of fractions, measurement and geometry, and establish an overall foundation for understanding and achievement on Common Core testing.

READING, WRITING, AND MORE! Session 2 9:55-11:45 am

Materials Fee-None

Sail into summer with a fun theme-based reading and writing workshop. Through reading and studying a popular novel, vocabulary and comprehension skills will be enhanced. The writing setting will include mini-lessons, daily writing time, revising practice, teacher and peer conferences, and author sharing. Come enjoy a trip to another place through reading and writing!

SUPREME MATH (LEGO Math) Session 1 7:50-9:40 am

Materials Fee-\$8

Have you ever used Lego's in math? Do you like to solve puzzles or play games? Then this is the course is for you! This course is designed to teach the concepts of fourth and fifth grade common core math to incoming fourth and fifth grade students through hands-on activities, investigative exploration, project-based inquiry, and games.

GRADES 4-6

COOKING AROUND THE WORLD

Session 1 7:50-9:40 am / Session 2 9:55-11:45 am

Materials Fee-\$50

Join us each morning where we'll slice and dice, blend, bake, and munch our way around the world as we explore some of the culinary traditions of cultures past and present. As we make our way around the globe, we'll be tempting our taste buds with recipes from Asia, Africa, Europe, and the Americas. Students will come away with basic cooking and math skills including measuring with solids and liquids, the difference between herbs and spices, recipe ingredient substitutions, recipe reading, slicing, dicing and mincing skills, grating and peeling skills, mixer and blender skills and more! So pack your apron and imagination for a trip around the world in our own backyard.

GOOEY GURGLING SCIENCE Session 2 9:55-11:45 am

Materials Fee-\$25

Ever wanted to get your hands on something gooeey and gross or make something explode? Would you like to make a cell out of candy or a planet you can eat? Then this is the class for you! We will be creating, molding, forming, and moving all sorts of substances that have many unusual properties and learn how all this “stuff” works. Students will have the opportunity to do different science experiments and projects that relate to upper grade California science standards.

PUTTING THE A IN STEAM Session 1 7:50-9:40 am

Materials Fee-\$25

Students will create 3-dimensional art projects using various items such as wood, clay, paper, and Styrofoam. Students will work in a cooperative, social environment to create projects that are fun, and sometimes funny. Let’s get messy! “Art has the role in education of helping children become like themselves instead of more like everyone else.”

THE TED-ED CLUB

Session 1 7:50-9:40 am / Session 2 9:55 -11:45 am

Materials Fee \$15

TED-Ed is TED's youth and education initiative that aims to spark and celebrate the ideas of students around the world. It’s designed to create a generation of creative problem solvers around the globe. TED-Ed Club students work together to discuss and celebrate creative ideas, and are supported in discovering, exploring, and presenting their “big idea” in the form of a TED-style talk. Students will identify and research the ideas that matter most to them. TED-Ed Club offers a hands-on opportunity to work on storytelling, writing, researching, and communication skills that will be vital to any path they take in life. At the end of the 16-day session, students will have created their very own TED-style talk that will be uploaded to the TED-Ed YouTube channel that will reach millions.

GRADES 5-6

GRADES 5-6

MATH & COMMON CORE Replaces Pre-Algebra w/current Math Standards

Session 1 7:50-9:40 am / Session 2 9:55-11:45 am

Materials Fee-\$12

Forge forward into pre-algebra by taking this hands-on class. Together we will explore integers, graphing, the order of operations, geometry, and equations. This is not the “same ol’ math class!” We will examine new ways to use math concepts we already know. We will achieve success in the new Common Core standards with the included Common Core workbook. Sign-up to see why and how algebra works: not just in school, but also in the real world

GRADES 7-8 CLASSES

will be held at TEMPLE CITY HIGH SCHOOL

Band & Orchestra will hold classes in the Music Room at Oak Avenue Intermediate School

Wednesday, June 13th –Thursday, July 12th

MONDAY – THURSDAY (Holiday July 4th & 5th)

GRADES 7-8

GET READY FOR ALGEBRA

Session 1 7:50-9:40 am / Session 2 9:55-11:45 am

Materials Fee-None

This class is designed to introduce students to basic pre-algebra/algebra skills. The goal is to create a comfort level with algebraic concepts. Evaluating expressions, literal equations, monomials and polynomials, factoring, quadratic equations, algebraic fractions, roots and radical and more will be covered in a relaxed classroom setting.

PUBLIC SPEAKING IN PAJAMAS! Session 1 7:50-9:40 am

Materials Fee-None

In this FUN, LOW-PRESSURE, and RELAXING class, students will learn and practice speaking techniques to build their confidence and poise. We will work on Socratic seminars, one- on-one conversation skills, and real-world speaking situations (like job and college interviews). They will experience working in both small groups and whole class

presentations and speeches. In addition to speaking, students will improve their research and writing skills as they prepare for our final project: our very own TED Talk Style Conference. (Pajamas not required!)

READERS WRITERS WORKSHOP

Session 1 7:50-9:40 am / Session 2 9:55-11:45 am

Materials Fee-\$10

Dive into summer with some of the most popular and exciting books that your kids are reading right now! Students will also use their imagination to write creatively and strengthen their abilities to clearly express their thoughts. A variety of enjoyable and artistic activities will also help your child focus on self-expression, while uncovering many of the Common Core standards.

ROBOTICS Session 1 7:50-9:40 am / Session 2 9:55-11:45 am

Materials Fee-\$10

Three engaging concepts, STEAM, Common Core and Robotics will be integrated into this enrichment curriculum. Students will learn first-hand how the field of Robotics integrates computer science, engineering and a “can do” spirit, to develop marvels of technology that truly expand our imagination of future possibilities. This class will provide practical experience with relevant computer science concepts. Come join the team of innovators who will accept the challenge and explore the awe-inspiring field of Robotics.

SUPER STORIES Session 1 7:50-9:40 am

Materials Fee-\$10

Tap into your current obsessions and create a variety of hand-made books. The class will experiment with different ways of book making while practicing your storytelling and art skills. Express yourself and the world around you by making awesome books in your own style.

WILD ABOUT ANIMALS Session 2 9:55 -11:45 am

Materials Fee \$10

Rip, cut, tear, and build! Use collage to make any animal imaginable. Learn traditional drawing and painting techniques by using your favorite animals as a source of inspiration! We will also read and create stories about your favorite animals and celebrate them in art pieces.

2-WEEK CAMP CLASSES

LITERATURE & FILM FOR JUNIOR HIGH

SEMESTER 1 JUNE 13 - JUNE 28

Session 2 9:55-11:45 am

Materials Fee-none

A dynamic emersion into literature. Students will read, discuss, and watch one of the following novels and its film adaptation. Students will collaborate with other students in literature circles, while meeting standards in reading, writing, listening and speaking. Titles may include, but are not limited to: *Wonder* by RJ Palacio, *The Giver* by Lois Lowry, *Freak the Mighty* by Rodman Philbrick

25 SKILLS EVERY TEENAGER SHOULD HAVE

SEMESTER 2 JULY 2 – JULY 12

Session 2 9:55-11:45 am

Materials Fee-\$20

Skills Every Teenager Should Have to Survive in the Real World – Inspired by the Harry Harrison book *1001 Things Every Teen Should Know Before They Leave Home*. In this class students will learn “real world” and “common sense” skills to help them become self sufficient, independent young people. Lessons ranging from money management, to how to prepare for a job interview, to how to sew a button will be covered. So students, do you want to prove to your parents that you are perfectly capable of being trusted in the world? Parents, do you want to worry less about how your child will survive every time they leave the safe four walls of your home? Then this fun, informative and common sense class is for you!
