

The Crisp Academy Board of Trustees adopted the following policy regarding misuse of social media.

**Social Media Misuse**

The use of social media by individuals in and outside of Crisp Academy is widespread and will continue to be prevalent in today's society. Social media can be a very powerful, positive and productive way of communication; however, improper and inappropriate use of social media can be very damaging, carry legal implications, and/or be considered an infringement of third party rights. Consistent with our existing policies, Crisp Academy reserves the right to dismiss any student, parent and/or other family members that choose to do harm to the institution and/or its constituents through the misuse of social media.

Adopted 8-23-2017
