

PURITY OF MOTIVE

Sunshine of the Americas Foundation A Non Profit 501 C3, of Cambridge, Massachusetts

Our Goal at the Sunshine of the Americas Foundation is to employ and rent the United Nations' structural headquarters at every evening tide until 6 am each morning. At those specific times it will function as a center of International media {Radio and TV} and Inter-Faith presentations to the locals of New York, the North American Community, even our World! Various educational and entertaining presentations will be created on the UN Plaza reflecting variegated customs, peaceful traditions and of course festive holy/holidays! Join to make *this resolution* a real success story for our World! Volunteer! Contribute!

We will purchase through our donations received a set of artistically designed super laser devices for manifestations that will transform the outside of the UN structure into a multi-international, interfaith cosmic wonder! All for the honor of Truth, Beauty and Goodness in your World, in our World!

It is our intention through DeGug, the Founder of Word Of Honor, Reverend James Peter Coughlin and Volunteers at the Sunshine of the Americas Foundation that we as a people of this organization of Sunshine of the Americas, as an Interfaith institution are welcoming all Leaders/Devotees from any faith to receive an honorary degree of recognition and at such a time they will become spontaneously Inter Faith Ministers. All People retain their personal faith, traditions, titles, yet they all have a new common denominator, title, Interfaith Ministers. Never do we interfere with anyone's personal faith; they keep all their traditions and normal identity, perfect uniqueness and individuality. We all live in two dimensions of Love, one's personal faith, self-respect, and second, one's understandings of interfaith, perceptiveness of all the truth, beauty and goodness in our World.

With that in mind we extend this unity for free to all Leaders and Peoples. Why? So that the joy of both worlds, yes both dimensions of thoughts will be experienced. First, one's personal faith totally retained by conscience and convictions together with second, the joy of total embracing of all the good meanings and true values in all religions, interfaith. This leads to a most harmonious world of differentiations and acceptance!

Yes, the same rights and privileges of self-hood for all of us to fully grasp, express and enjoy is within reach of all. The devotees of organized major/minor religions that seek a self centered control over Women, Children and their Followers need to awaken to the realization that the United Nation's structure is to become the center for all sorts of great celebrations among the Peoples of all faiths. Let us prevent wars and unite by Inter-Faith understandings and common goals. Let us bring peaceful and exciting entertainment on spiritual levels at our World center.

Once we get started, as previously indicated, all these activities at the UN will be prepared at evening tides, night times, with spiritually designed social functions of feast and special meaningful events. Also, there will be a total separation of Religion and State, just different times to employ/rent the structure of the United Nations' building for those differing and specific purposes with values, family ideas and similar goals.

There would be 12 major international interfaith meetings a year. Furthermore, we will televise, broadcast bi annual conclaves of Leaderships from all Religions conjoining on the interfaith levels for resolving issues and working for interfaith principles. These principles are fair, courteous and just for all People, that is just for all Men, all Women and Children too. Just imagine the unity and diversity of all Organizations. They, the Organizations and Devotees will contribute to the rent fee of the United Nations Center; management will be discussed, as the intellectual infrastructure is apparent. From all of this we will receive full benefits from true Devotees.

Our Flagship site is [www. Word of Honor.Org](http://www.WordofHonor.Org). Founder, Danny De Gug
