Utica PA
Recommended by Char Arendas

Recommend your Vet!

ORVLA members are being asked to help create a veterinarian database for its members. This database will be valuable in the event that you are in search of a good camelid vet or your current vet is unavailable and another vet is needed. The list will help you find a vet in your local area and receive help.

Please check with your vet first to see if they would like to be included. Their information will be listed on the website, in the directory and Topline. Also, to keep our vet's current in our camelid world, they will receive Topline with our thanks for all they do for us.

Send your veterinarian's name, address, phone and web information to Shani Porter, shaniporter@gmail.com or call (816) 550-3421
