**Career Exploration 9 periods 1-2:** I have these students for two periods per day. The first period is usually a lesson, and the second period is usually hands-on activities. I have these students for only one nine-week period.

**CBI 10 period 3:** I only have these students for one period so one day is a lesson and one day is for hands-on activities. I have these students for one semester. These students are extremely far behind on their projects because I only get them one period a day. They will spend this week catching up on their project.

**CBI 12 periods 4,5,7:** I have these students for two periods a day so the first period will usually be a lesson and the second period will usually be hands-on activities. I have these students for the entire school year.

**CBI 10 Periods 8-9:** I have these students for two periods a day so the first period will usually be a lesson and the second period will usually be hands-on activities. I have these students for one semester. They are way behind on their project. (Through no fault of their own) and I have a couple of students that are far behind on classwork so we are going to catch up on the project and allow those who are behind to get some schoolwork done.
