

## Job Posting: Metal Finishing Technician

### Morse Dental Laboratory, Inc.

Morse Dental Laboratory Inc. has been in business for over 25 years and offers world-class removable dental products. We are known for building strong and trusted relationships. We work closely with our doctors and their staff to help make certain we satisfy you and your patients. We're a team that is dedicated to exceeding your expectations in both quality and service. Our employees enjoy a casual work environment, opportunities for development and a real opportunity to make a difference.

### **Metal Finishing Technician - Fairport Harbor, Ohio** **[Part Time]**

In collaboration with the Lead Technician, the Metal Finishing Technician will focus on the fabrication of partial denture appliances in a dental laboratory setting.

Key responsibilities include:

- Remove excess metal or porcelain and polish surfaces of prostheses or frameworks, using polishing machines.
- Melt metals or mix plaster, porcelain, or acrylic pastes and pour materials into molds or over frameworks to form dental prostheses or apparatus.
- Prepare metal surfaces for bonding with porcelain to create artificial teeth, using small hand tools.
- Shape and solder wire and metal frames or bands for dental products, using soldering irons and hand tools.
- Operates and maintains a variety of dental laboratory tools and equipment such as trimmers, grinders, lathes, articulators, and cleaning devices.
- Utilizes and conserves supplies and equipment by completing plaster casting, electro-spot welding, metal casting, metal polishing, wax modeling, ceramics, wire bending, electroplating and sandblasting; using CAD/CAM units; maintaining supplies inventories; keeping equipment operating.

Successful candidates will have:

- Possess better than average ability to pay attention to details.
- Proficient communicative, auditory, and visual skills are needed.
- Self-motivated with the willingness to exceed patient expectations.
- Demonstrated adaptability and flexibility with changes in workload.
- Ability to work in a fast-paced environment while maintaining a positive attitude.
- Strong oral and written communication skills.
- Strict adherence to policies and regulations relating to OSHA and HIPAA.

- Good eye-hand coordination and color perception, dexterity in using small instruments, the patience to attend to minute detail and an interest in learning the underlying material science.
- Physical stamina sufficient to perform frequent bending, light or moderate lifting and extensive standing/walking.
- May be exposed to fumes, chemicals, cold, noise, radiation, blood/body fluids, and infectious diseases.
- Frequently walking and reaching (overhead, extensive, repetitive)
- Ability to lift/push/pull greater than 50 lbs.
- Certified Dental Technician certification preferred but not required
- GED/High School Diploma or higher required.

#### **HOW TO APPLY**

Applicants should send a resume and cover letter outlining how they meet the specific requirements of the position to [PMorse@MorseDentalLab.com](mailto:PMorse@MorseDentalLab.com).

While we sincerely appreciate all applications, only those candidates selected for interview will be contacted.
