

# FoxGem's Virtual Workshop

## Beginners Brush Up with NEW Exercises!

3 weeks, appx 1 hour each week

This workshop will cover many things that you perhaps didn't learn in your puppy or beginner class. We feel that these exercises and theories are key, literally critical to successful training. If you relearn some of these foundations, you will have a much more enjoyable journey to higher levels of training and your relationship with your dog will be much more balanced and fair.

There will be handouts, homework **plus all the extra time with the instructor that you need** during the span of the three weeks, on items related to topics within the workshop.

The instructor will have dogs on hand for demo and having your viewing device in an area that your dog can be nearby would be optimal. You won't need much space to practice along with us live.

Here are some examples of what we will cover.

Marker Words – Using them correctly, how, why and when

Cookie Station – Making training fun and focused

Offered Behaviors – What, when and how to use them

Heeling – This will likely be a lot different (and more fun) than the traditional methods you might have learned.

Stool Work – Why, how and what is the carry over!?

Those are only a few of the topics to be covered! There will be much more!
