Guests of Honor
MORNING MINYAN
BRUCE JACOBS
YOSEF ALVARES

The daily minyan is one of the foundations of any synagogue and this year the participants in this sacred prayer meeting served a very important function. As the community was battered with negative news about the pandemic and many synagogues across the world remained closed, these individuals stepped out of their homes as soon as the lockdown was lifted and came to pray to Hashem every morning regardless of weather or other obligations. By their determination, they enabled other people who needed a minyan to be able to pray and honor relatives, anniversaries or other commemorative occasions. We all owe them our gratitude for their faith and their perseverant discipline in attending every day to make a minyan.
