Create an active and vital state transportation association in New Mexico

Participation by a broad cross section of public transportation providers is essential for the success of NMTA. The Board of Directors ensures representation that adequately reflects the needs of the membership. By addressing public transportation issues in the rural, urban, and suburban regions of New Mexico, the NMTA is meeting the challenges of its primary goal.

Provide effective training for our members

NMTA recognizes the value of providing training for Association members. To attain this goal, NMTA, through its partnership with Passenger Transportation Programs Bureau, funds quarterly training for drivers and management. NMTA connects communities throughout the state by sponsoring its annual conference, providing the most current safety updates, and hosting the annual bus and van Rodeo.

Provide an effective education program for internal and external uses

Education of industry members and affected stakeholders is key in developing and maintaining a strong public transportation system. NMTA develops informational literature and strong public education tools to keep our members up to date on issues affecting the industry. NMTA analyzes the impacts of national and statewide agency and legislative actions, and publishes a quarterly newsletter.

Advocate for statewide support and development of public transportation in New Mexico

NMTA identifies and disseminates information to our members that may be used for promoting additional funding at the federal, state and local levels. NMTA provides member training for effective grant writing, and monitors and evaluates state legislation affecting our members.
