November is a Month for special Thanks!

At this time of year we always think more about what we are thankful for, and when I think of my business I am especially thankful for each of you and the impact you have had in my life. Where would my life be without Shaklee? I have taken it for granted for so many years. It is startling, to think about not having Shaklee in my life. I would not have known most of you, I would not have the health that I have and I would probably working for minimum pay, with someone else telling me when to come and go and what to do and not to do. I would not have traveled as I would not have the means to travel. What an amazing opportunity..

Where else can you take such a wonderful vacation for free. All expenses paid. Have you ever thought about increasing cash flow in your household? Do you have a retirement set aside? When I joined this company I never would have believed it would be the source to build my life as it is today. Shaklee is the vehicle I have used to get me to where I am today. If you have an interest in anything I have shared let me know. We help you build your team and receive the same benefits I have grown to love. When I say you can choose how you want your life to be, it is so, Call me and we can sit down and show you how. Thanks for being you, and sharing this amazing company with your friends and family, whether it is the product or opportunity . Nina

Vitalizer

Vitalizer every morning means no more Tylenol PM every night and no more Caffeine boost every morning for me. I threw my Alieve Bottle (pain medication) away over two years ago! No instead of needing Alieve... I am Alive! T Thoman

With Vitalizer I have noticed a big difference in my emotional health where I can handle situations better and calmly unlike before due to imbalances of hormones. I am happier and relaxed. N Panjwani

My significant other, Russ, believes in Vitalizer. He decided to add Vitalizer Gold because it contains CoQ10 to give additional support in managing inflammation since he stkes statin drugs for his heart condition. He has diabetes and the Gold is key in deeping him off medication used to control neuropathy. Since being on Vitalizer Gold, Russ has Happy Feet. K Wroblewski

"Life isn't about waiting for the storm to pass - it's about learning to dance in the rain" So what are you waiting for? Grab The Shaklee umbrella!

Our Shaklee Story

In December 1999 My husband John suffered an aneurysm bursting in his head. He survived it but the surgery left him disabled and he was forced into an early retirement. When we walked out of the Doctors office after his last evaluation in 2002...we were left with a very bleak future. They told us that nothing could be done about his other aneurysms because these were a hereditary problem and life would just be left to chance. We went from very lucrative income to nothing but a

little disability insurance. Needless to say we had to make a lot of adjustments in our lifestyles very fast.

One day a friend of mine that was familiar with his critical medical condition called me and shared her Shaklee story. After being on the verge of death and planning her funeral she was healed from Lupus . Hers was a pathway to healing...some spiritual, some mental and a very strong regimen of Shaklee supplements...and she walks in totally healing today. She asked me to put John on what she called a Shaklee "90 Days to Wellness" Program. I was skeptical at first, but desperate agreed to give it a try.

To make a long wonderful story short. After 3 months I began to get my best friend and husband back. He came up out of that recliner he had been in 2 years and today I have my husband back and we owe it all to Shaklee Nutritional Products. His recovery was so incredible that when others noticed, they wanted to know what we were taking and that is how I got started in Shaklee.

2010 Update: John had another aneurysm behind his right eye that they could not operate on. But two years ago Shaklee introduced Vivix Anti-Aging tonic and we both added it to our daily routine and in August he went for a angiogram and the doctors could not find any signs of aneurysms! Vivix works by renewing cells and causes them to heal corrupted DNA. No more fear of death due to one of those bursting in his head!

Breast Cancer

I am a breast cancer survivor now 11 years out. For the last four years I have had a tumor marker done during my yearly oncologist visit. The range is between 0-35 (no one has 0). In 2004, it was around 18. Each year it has slowly ticked up and in 2007 it was up to 20.7. This was a red flag for me although my oncologist dismissed it. I started using Vivix in Aug. 2008. In Oct. 2008, I had my yearly checkup and had my tumor marker done. My tumor marker was down to 9.3. Wow! The only thing I did differently was to take Vivix. Since my encounter with breast cancer, I have made it my mission to help others to live a healthier life. I was not looking for Shaklee. Shaklee found me and I am so very thankful everyday of my life. Shaklee has helped me turn something so negative into a positive by giving me the opportunity to share my story and to help people just like me with products that really work.

Designing My Life

Like many Leaders in Shaklee, Julie Veenstra started as a happy consumer of Shaklee products—not looking at first for a way to earn an income. But when she became a single mom with no financial support and a bunch of debt, the bonuses and rewards from her Shaklee business became a way to independently design the life she wanted for herself and her four year old son. That life included driving a Shaklee car, buying a home of her own, finishing her university degree and sending her son to private school. Along the way she has been taken on trips to the Bahamas, Mexico, Hawaii, Paris, and even Kenya!

Stroke, Seizures, and progressive Dementia and MindWorks

Back in 2000, I left work & went to the emergency room because of numbness that was progressing down my left arm. They eventually came up with a diagnosis that I have a genetic disorder that makes me prone to strokes, seizures & progressive dementia. I had my first seizure the next morning in the hospital, my first stroke about six months later. My mental capacity started to lessen as well with each additional seizure.

Looking back, I can see how my job performance was slowly suffering as was my social life. I had another stroke which affected my balance and I ended up having to walk with a cane. My world was getting smaller & smaller, the seizures & strokes continued. The damage to my mental state was devastating, I couldn't hold a decent conversation, I would simply sit silently & just listen to others. I would stumble over simple words, trying to find them in my mind. I would cry in pure frustration, knowing it was only going to get worse. I spent most of my time, home alone, not wanting to do anything or deal with anyone.

It was last year that my sister, Susan, met Julie Young & was introduced to Shaklee. Susan tried some of the products, including MindWorks. She told me about it & how it was helping her. She then asked me if I would be willing to give it a try & I said yes.

After about 3 weeks on MindWorks, I started noticing a difference. I was feeling more alert, & more positive. I remembered more & was speaking more with less difficulty. I wanted to keep taking the MindWorks.

I was really noticing a major difference. Susan would say, I was like a two year old, at first you couldn't get me to talk, now you can't get me to shut up. I am truly grateful for MindWorks, all it & what the other Shaklee products are doing for me. Because of my third stroke about 6 years ago, I had to stop teaching Sunday school. Now I am very happy to say I am back, teaching the 5 & 6 year olds in my church. With the MindWorks & the Vivix, not only has my balance improved but [July 4th](#) I ran a 4 mile race and have also done Three 5Ks this past summer. And I know it is because of MindWorks that I am able to stand up here today in front of all of you & be able to talk.

MindWorks & the Other Shaklee products I use have turned my life around & because of the Shaklee difference, I chose to become a distributor so that I may share this amazing gift with others.

Diabetes and Neuropathy

I have been diabetic since 1996. I have neuropathy in my legs and feet. On the days at work when I have to be on my feet for 5 hours or more I would leave limping with very swollen feet ... I could barely walk. I would have to go home and elevate my feet and legs for an hour or two just to be able to function. I started taking Vivix in 2008 and within about 3-4 months I noticed that when I left work, I did not have to go straight home—I could run errands and the pain and swelling was no longer in my feet. I can't say that the Vivix gave me more energy per se but rather I described it as more endurance. I won't go a day without it.

M.F.

When my daughter was 4, she had terrible stomach pains after every meal. She would eat her meal and lay on the sofa while the rest of us finished. We had her stool tested but the doctor couldn't explain the problem. Finally,

someone suggested Alfalfa and Stomach Soothing Complex ... 2 Alfalfa and 1 Stomach Soothing Complex, and her pain stopped. J.D.

Note: This works wonders for adults... Just increase the amounts. Also, consider taking EZ-Gest with your meals for digestion.

STOMACH PAINS

Fresh Laundry Liquid Concentrate

Here's a fresh idea: pre-spot and wash your laundry with the same product. This two-for-one concentrate doesn't just outperform leading detergents, it also outperforms big-name spot removers, all while protecting our planet's precious natural resources. How's that for a breath of fresh laundry?

HE Compatible Formula!

Also ideal for standard washers.

Product Highlight NEW Vitalized Immunity

Our immune systems are under attack every day!!

Why Take It ~ We have been warned that deadly viruses could cause worldwide pandemics. Every day we breathe, eat, touch, or share millions of dangerous microbes. Our immune systems daily are under attack from pollutants, the food

we eat, stress, lack of sleep, smoking, nutritional deficiencies, sedentary lifestyle, weight issues. Also every day approximately a dozen cells in our body become cancerous and we rely on our immune system to zap them before they can form tumors.

Our immune system naturally weakens as we age unless we take steps to support this proc-

ess.

Vitalized Immunity provides as much immune-supporting Vitamin C as 16 oranges. Also contains Echinacea, zinc, Japanese Honeysuckle, Ginger, other herbs, plus vitamins and minerals, amino acids, and sweetened naturally with Monk Fruit.

Simply drop 1 Vitalized Immunity tablet in water... let dissolve...and enjoy a delicious effervescent drink anytime. Excellent fast acting immune support with only 15 calories.

Perfect to carry with you anytime in your purse, brief case, computer bag, etc. Drink when traveling, flying on a plane, etc. Take at first sign of tickle, cough, sore throat, or anytime when starting to feel 'under the weather'. Can be used for everyday immune support.
