#### **Original starts**

Original starts will be made on the front stretch just off of turn four. An orange cone will be placed at the edge of the track or white line will be drawn in the location where drivers will be allowed to start the race. The flagman will display the green flag and turn on the green light at that time. If the officials determine that the start was unfair, or "jumped", the yellow light will be turned on, and the yellow flag will be displayed. Drivers may be penalized for attempting to gain an unfair advantage on a start by "jumping" or "brake checking". Penalties may include lost positions, restarts from the rear, or disqualification from the race through a black flag. Any driver involved in a caution, or deemed to have caused a caution on an original start, will restart from the rear of the field. No exceptions.

#### **Re-starts**

Re-starts will occur on the front stretch at the orange cone place on the inside edge of the track. Any driver involved in the caution, or deemed to have caused the caution will restart from the rear of the field. No exceptions.

### Double file restarts

Standard restart procedures will be double-file, with the exception of the leader. The leader will start out front by him/herself. All remaining lead lap cars will be aligned in that order. All lapped cars will be aligned behind the lead lap cars. After two attempted double-file restarts in any heat or feature race, the field will be lined up single file for the duration of the event. Any restarts with three or fewer cars will be single file. All feature restarts with five or less laps remaining will be single file restarts.
