

Sage 100c – The Future of Sage 100

Sage has released the modernized version of Sage 100, called Sage 100c, and we encourage you to seriously consider this.

What is Sage 100c?

- Sage 100c is licensed on a subscription basis per user, paid monthly, annually or three years, including all maintenance fees. Subscription is a licensing method only, therefore this version may continue to operate using your current computer environment.
- Although you may host 100c, it is not a cloud or web-based application.
- The underlying programs and data files are identical between Sage 100 and Sage 100c. The learning curve is minimal, and the software may be deployed quickly.
- Sage 100c includes a modernized user interface resulting in improved navigation, customizable desktop themes and more. Although both Sage 100 and Sage 100c will receive the same enhancements, some future features will only be available in Sage 100c.

What are the advantages of Sage 100c?

- Licensing simplification and flexibility
- Modernized user interface
- Personalization and Advanced Security Settings – Individuals can change colors and themes while still only accessing the info they are authorized to see.
- Screen size scaling
- Platform upgrades at any time at no charge (Standard, Advanced, Premium)
- Licensed users easily added/deleted
- Future direction for Sage
- Select features included at no cost based on bundles and business care selected
 - Sage Inventory Advisor Basics
 - DSD/ScanForce Multi-Bin Basic
- Exclusive enhancement offerings
 - Interactive Warehouse
 - Spell Check
 - AP Automation
 - Future Offerings to be released

Why change to Sage 100c now?

- Sage will only be offering the Sage 100c version to new customers as of January 2017.
- Advantages as listed above.

What are the required investments for Sage 100c?

- The start date on Sage 100c will be your new anniversary date. Subscription fees will be due upon signing, less a proration of the remaining time on your current annual maintenance plan.
- Annual plans carry a 10% discount over Monthly plans, so if you want to continue to pay monthly, the annual cost will be greater.
- Three-year plans include three months free and no increases over the three-year period.
- If you are not currently running Sage 100 2016, an upgrade will be required to this version, and consulting fees will apply.

We will contact you to discuss options, your Sage 100c investment, and forms required. We believe this is a good opportunity.
