

About Us

WE'RE REALLY GOOD AT WHAT WE DO

(And We Have Good People Doing It)

What sets Morse Dental Lab apart? In short, our passion and the quality and training of our people. For over 25 years now, Morse Dental Lab's people have diligently worked to create dental restorations for our clients. As a longtime removables provider, we know that earning and keeping our client's trust is as important as taking care of their dentures.

FAMILY OWNED AND OPERATED SINCE 1991

We believe that a family-owned business will consistently outperform almost every other type of business. Family-owned firms are more stable and tend to have a high level of trust and commitment because how the company behaves reflects the family's personal integrity.
