CHALK (drop shipment from your teacher)

Chalk the driveway or sidewalk.

Make a road, curvy, straight.

Walk the line forwards, backwards, hop, skip, sideways.

Add shapes, letters in your name, numbers....as you hop on it, shout out it's name.

BUBBLES (drop shipment from your teacher)

Blow bubbles

If it's a windy day, let the wind blow them!

BUBBLES INSIDE

In a 9 x 9 pan with sides, add bubble solution or Dishwashing liquid, water, food coloring.

Recommended: Cut a small V in the top of the straw about 4 inches down.

Caution: My experience has taught me that children usually keep their mouth on the straw when inhaling, too. Monitor: blow, release straw, take a breath, then blow into the straw.

If you have colored bubbles, capture them by gently laying a piece of paper on top of the bubble mound.
