

Club David Membership

This unique club features David Hoff Ceramic Techniques and Tips. Club David is our way of giving you monthly lessons that you can download. Like great techniques and useful tips that can be used to further your skills and general knowledge of ceramics. Our plan is to bring you one technique per month complete with: Photo, Step by Step instruction, Pattern(s), a Palette Sheet and Special Tips on how to complete the project presented. Primarily these projects will focus on Brushstrokes and some Airbrushing.

How Club David Works:

- ✓ This is a subscription service for ceramic techniques.
- ✓ Club fee is \$60.00 per year (using the web) renewable each January.
- ✓ You can register on line via PayPal. Also, you can register by mail using a check, money order or Visa/Master Card.
- ✓ Once the registration is complete you will be given a page link, you can then download each month's technique. A Technique will be added each month and will stay online for one year. Therefore, if you join mid-year you will still be able to download previous month's activities. All members will have the same anniversary date.
- ✓ We will use Acrobat to convert the packets, which should make it easy for all computer owners to download the technique packets. We have a link available to download Acrobat Reader, FREE, if you do not have it.
- ✓ Memberships are non-transferable and are good for one year. On the anniversary date a new page link will be issued upon your renewal.
- ✓ We ask that you and you alone use the site, you have paid for it. Therefore protect your interest and ours

by keeping it to yourself.
