

FULL PROTECTION

THE TWO PIECE APRON

When full protection becomes important, the **TWO PIECE** should be your choice. Two pieces add to your comfort through more efficient distribution of weight. Each front vest panel is .5mm Pb. equiv. The vest comes with shoulder pads, pocket and embroidery. The skirt has hanging loops as well as an attached belt to tighten the waist. For a smaller waist, we can sew elastic in the back of the skirt

THE SLOT STRETCHY BACK APRON

While still getting full protection, our customer also receives Pulse's lightest vest. This design incorporates back lumbar support with elastic in the back. The **SLOT STRETCHY BACK**, allows the customer to adjust for maximum comfort. We include shoulder pads, pocket and embroidery

FULL PROTECTION

THE JACKET APRON

Our **JACKET** apron was designed by Pulse for optimal protection. Your comfort is also a primary concern so a wide support belt and shoulder pads are standard. Each front panel is .5mm Pb. equiv. An embroidered pocket is also included.

THE BACK CLOSE WRAP JACKET

The **BACK CLOSE WRAP** is our lightest full protection jacket. As an improvement, this style has a strap across the shoulders to hold them in place. For a more secure fit, we added front buckles. An embroidered pocket and shoulder pads are also included.

FULL PROTECTION

The front of the **MATERNITY JACKET** apron (.5mm Pb equivalence) is tapered for maximum adjustability as needed. We can include a specially designed half-apron to be worn under the full apron for double protection in the abdomen-pelvic cavity (1.0mm Pb total equivalence). The lead used is the lightest currently available. Also available in front protection only.

BACK

THE PULSE MEDICAL APRON RECOVERY

Dirty, torn or just plain ugly aprons.

We can recover any apron into practically any style and make it look like new. The customer assumes responsibility for checking the apron for holes prior to sending it to us. Pulse will visually examine all lead and patch small up to 2 pin holes marked by the customer. Most aprons will be recovered with shoulder pads, and an embroidered pocket.

Recoveries are either:

- As is: same style, just replacing fabric and binding, or
- Alteration required: tell us what to change (style or size) and we'll try to make it possible for you.
