

Why Cyber-Security?

Think high profile breach and your company in the media. The IMPACT to your company, data, reputation, customer privacy, budget/revenue, etc. There is huge RISK and LIABILITY. Don't ignore the threat that is about to destroy you and take it all!

Why Titan - Why an Attorney?

1. Preventing a breach is about assessing and understanding risk, liability and legal obligations.
2. Reacting to a breach requires a plan, hiring vendors to investigate, coordination, thinking clearly and getting legal advice.

“Reasonable Security” requires showing due diligence”

COMPANY OVERVIEW

Mr. Willson, owner of Titan Info Security Group, is a retired Army JAG Officer. During his career he worked at NSA and CYBERCOM. He is licensed to practice in multiple states. He utilizes his risk, cyber and legal skills and expertise to provide the best support possible. Mr. Willson helps owners, CEOs, and executives assess and protect their company - show due diligence, develop a plan to lower the risk of a breach, react quickly to an incident and protect company reputation.
