

Good morning!

Hope you all had a GREAT weekend and got at least one game under your belt. It was GREAT to get back on the court again!

So today's clip.....all for discussion.....take a look [here](#).

So when we had a session at the convention about screening, a BIG question was 'when does the screen end?' I would argue that this is not an illegal screen on blue 31 but a hold.....my rationale is that the SCREEN was fine, but after she rolled off of it, she held the defender from getting to the shooter.

The question is WHO should see the screen and result? Should this all be T only? Can C help? SHOULD C help?

These are great questions to have in a pre-game conference.....HAVE THEM! In a two-person game, this is almost solely T.

TALK about this with officials in meetings, texting and at games! This is a 'food for thought' clip!

Have a great game tonight!

Tim
