

# Class 10 Chemistry Home Assignment 1

## Instructions for students:

\* Watch the following links:

<https://youtu.be/HmNsQKLRgh8>

<https://youtu.be/zmdxMlb88Fs>

<https://www.learnbse.in/chemical-reactions-and-equations-class-10-notes/>

\* Read and write notes in your notebook from the above links.

\* Complete questions-answers

1. Differentiate between Combination reaction and Decomposition reaction
2. Differentiate between Displacement and Double Displacement reaction
3. Differentiate between Oxidation and Reduction
4. Differentiate between Oxidising agent and Reducing agent
