St. Landry Parish Hurricane Barry Debris Pick-Up Operations

St. Landry Parish Government in conjunction with the St. Landry Parish Solid Waste Disposal District and Municipal Governments are coordinating efforts to remove Hurricane Barry storm debris from residents affected in St. Landry Parish.

We encourage residents to place all debris curbside. Please separate vegetative and construction type materials. Do not place debris onto roadways or in ditches and make sure it is placed for easy access by equipment away from overhead power lines.

Debris pick-up will begin on Monday, July 22, 2019 and take place over the next several weeks. Crews will make (3) three different passes in order to give residents enough time to place items curbside.

St. Landry Parish residents are not required to obtain permits to dump debris at the landfill, only commercial haulers are required. The number for permitting is 337-945-3662, any other questions should be directed to the St. Landry Parish Solid Waste Disposal District at (337) 826-5211.
