## Goat Power™ 22% Red Block

### 80921AAA

A Free-choice Supplement for Goats on Pasture  
or with All-Roughage Rations

#### GUARANTEED ANALYSIS

Crude Protein, not less than .....	22.0%
(This includes not more than 1.0% equivalent crude protein from non-protein nitrogen.)	
Crude Fat, not less than .....	1.0%
Crude Fiber, not more than.....	11.0%
Calcium (Ca), not less than .....	2.5%
Calcium (Ca), not more than.....	3.5%
Phosphorus (P), not less than .....	1.25%
Salt (NaCl), not less than.....	11.5%
Salt (NaCl), not more than.....	13.5%
Copper (Cu), not less than.....	40 ppm
Copper (Cu) not more than .....	60 ppm
Selenium (Se), not less than .....	1.0 ppm
Selenium (Se), not more than.....	2.0 ppm
Vitamin A, not less than 22,000 IU per pound.	
Vitamin E, not less than 16 IU per pound.	

#### INGREDIENTS

Plant Protein Products, Processed Grain By-Products, Roughage Products, Salt, Calcium Phosphate, Calcium Carbonate, Lignin Sulfonate, Iron Oxide, Calcium Sulfate, Cane Molasses, Ammonium Chloride, Thiamine, Manganese Oxide, Zinc Oxide, Copper Sulfate, Sodium Propionate (A Preservative), Magnesium Oxide, Vitamin A Supplement, Ferrous Sulfate, Potassium Sulfate, Potassium Iodide, Sodium Selenite, Vitamin E Supplement, Vitamin D<sub>3</sub> Supplement, Cobalt Carbonate.

#### INSTRUCTIONS FOR FEEDING

This product is designed for self-feeding to goats on pasture or with all-roughage rations. After making sure animals have adequate pasture or roughage and are not starved for minerals or salt, remove salt or minerals and feed the blocks free-choice. The blocks may be fed on the ground, but it is best to feed in bunks or boxes. Protect the blocks from heavy rains to minimize waste.

Consumption of this product will vary according to the animal's body weight and the quality and quantity of available roughage. Recommended consumption is 0.25 to 0.7 lb per head daily. A 3-day supply of blocks may be put out at one time.

Goat Power 22% Red Block is not a complete feed, and must be fed with pasture and/or roughage. Blocks consumed in recommended amounts will supply adequate minerals. If pasture and/or roughage supply inadequate energy for satisfactory growth, performance or body condition, supplemental grain or good quality roughage should be fed.

**CAUTION:** This feed contains copper. Do not feed to sheep or other copper sensitive species. Angora and Pygmy goats have been reported to be sensitive to copper supplementation. This feed contains a source of non-protein nitrogen. The equivalent protein supplied by non-protein nitrogen should not exceed 1/3 of the crude protein of the total ration. Use only as directed. For ruminants (cattle, sheep, and goats) only. Feeding added selenium at levels in excess of 0.3 ppm in the total diet is prohibited.
