

**Place a checkmark by the numbers in each section below that best describe you. If you are questioning any, be sure they “REALLY” describe you. For example, if you are neat, but no more than the average person, you might choose “not” to mark “I maintain a neat and orderly lifestyle.” Once you have completed all the questions in a section, add them up and place the total sum at the end. If you have a similar amount in more than one section, read the stress and typical problems paragraphs to determine the element that “BEST” describes you.**
