

AMERICA IS BABYLON! TWO MUST-SEE VIDEOS!

<https://www.youtube.com/watch?v=v78Nwex02zU> First one is in 4 parts, each like 10 or 15 minutes. If you haven't heard this before, you must. Don't forget to go on to the next 3 videos that go with this!

The other America is Babylon video is the same title, but a different video and adds in some other scriptures. That one is a bit over an hour, also excellent: <https://www.youtube.com/watch?v=ak4tOpD38hA> Watch all 4 parts of the first video and be sure to catch the second video too. It's a clear message that comes straight from the pages of the Holy Bible prophecies concerning end-times Babylon, and anybody who's looking for truthful answers can see it's talking about the USA. My thinking (based on current events and based on certain scriptures that speak of an attack by an 'assembly of great nations' in the spring) is that this spring is the time. Really, we hardly need these prophecies to see it coming, but the prophecies are still sobering to contemplate, and serve as a clear warning to Flee. The first (4-part) video is presented by a secular Canadian broadcaster of no particular religious denomination. Both of these video presentations are quoting from the King James Bible, and the scriptures are plain as day to see what's coming for America. These videos are not about obscure verses in scripture, are not ripped out of context and given secret meanings and new definitions of words in order to make them conform with cultic or pet doctrines. The message in these scriptures is something nobody wants to hear - nobody that lives in the SA -- and everybody wants to say that Babylon is the Catholic Church or Jerusalem or maybe Iran. But the words speak for themselves, and if you dare to listen and find out the truth, then I recommend these two videos. It's America in prophecy - and to anybody who's open to the truth you can't miss it. And after you've watched these videos, if you wonder why a confederation of nations would want to destroy such a wonderful country as the USA, then check out this link, and put yourself in the world's shoes, and the answer will be obvious to you:
