# Introduction

## A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

### Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

### Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

### The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table.

The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

## General Information

This book is effective January 6, 2020, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit [www.HermanMiller.com](http://www.HermanMiller.com).

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest  $\frac{1}{8}$ ". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

### 20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon  will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an  are on the assigned lead-time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Side Chairs

### Product Information

#### Description

This chair has an upholstered seat with 3 backrest options. The upholstered back option offers an array of textiles with a polymer outer back shell. Interweave 2 is a high-performing suspension material that delivers increased comfort, breathability, built-in sacral support, and total spinal support. The TriFlex™ polymer back is 100% engineered polymer that offers flexible and continuous support including built-in sacral support and meets rigorous cleaning protocols. Interweave 2 suspension back and TriFlex polymer back chairs come standard with passive sacral support and are available with optional adjustable lumbar support with sacral support.

The chair has a 5-star base and 2 pneumatic height adjustment options. The back frame/outer shell, arms, arm pads and base finishes are black or mineral. Base is also available in polished aluminum with black or mineral frame.

Tilt options include a semi synchronous with tilt limiter, synchronous with tilt limiter, and a synchronous with tilt limiter and seat angle. All tilts have the option of fixed seat depth or an adjustable seat depth with  $2\frac{3}{4}$ " range. The tilt limiter allows the user to set tilt range to limit the amount of recline.

The synchronous with tilt limiter and seat angle allows the user to set tilt range and select a  $5^\circ$  forward seat angle.

Arm choices include no arms, fixed arms, height-adjustable arms with 4" vertical range, and fully adjustable arms that adjust 4" vertically, 2" front-to-back and  $1\frac{1}{4}$ " horizontally.

#### Notes

Chair is tested and warranted for use by persons 350 pounds and under.

To order ready-to-assemble chair, order (PIA2) separately.

Arms can be removed in the field.

For information on casters and glides, see Casters and Glides in appendices.

Customer's Own Material (COM) requires 0.79 yards for Interweave 2 suspension and TriFlex polymer back chairs, and 1.35 yards for upholstered seat/back chair. See Order Information in appendices.

### Product Information

#### Description

This stool has an upholstered seat with 3 backrest options. The upholstered back option offers an array of textiles with a polymer outer back shell. Interweave 2 is a high-performing suspension material that delivers increased comfort, breathability, built-in sacral support, and total spinal support. The TriFlex™ polymer back is 100% engineered polymer that offers flexible and continuous support including built-in sacral support and meets rigorous cleaning protocols. Interweave 2 suspension back and TriFlex polymer back stools come standard with passive sacral support and are available with optional adjustable lumbar support with sacral support.

The stool has a 5-star base and pneumatic height adjustment. The back shell, arms, arm pads and tilt cover finishes are black or mineral. A 20" diameter footrest adjusts  $4\frac{1}{2}$ " in height. Footrest finish is trivalent chrome. Column and ring support are black.

Tilt options include height adjustable and synchronous with tilt limiter. Height adjustable option does not recline. Synchronous with tilt limiter option allows the user to set tilt range to limit the amount of recline.

Both tilts have a fixed seat depth.

Arm choices include no arms, fixed arms, height-adjustable arms with 4" vertical range, and fully adjustable arms that adjust 4" vertically, 2" front-to-back and  $1\frac{1}{4}$ " horizontally.

#### Notes

Stool is tested and warranted for use by persons 350 pounds and under.

Arms can be removed in the field.

Stool ships fully assembled.

For information on casters and glides, see Casters and Glides in appendices.

Customer's Own Material (COM) requires 0.79 yards for Interweave 2 suspension and TriFlex polymer back stools, and 1.35 yards for upholstered seat/back stool. See Order Information in appendices.

FR To meet California TB 133 code requirements, fabrics must be applied to approved chairs identified with FR product numbers.

# Customer's Own Material/Customer's Own Leather Order Information — Seating

## Packaging

Packaging varies according to individual product. A surcharge may be added for special packaging requests. Contact Customer Care for specific information.

## Customer's Own Material/Customer's Own Leather

### Program Overview

The Customer's Own Material (COM) and Customer's Own Leather (COL) program gives you the option of using textiles other than those listed. Herman Miller will test textiles for application to Herman Miller products and will process orders for those with approved COM/COL textiles only. COM/COL are assigned lead-time textiles.

Omni lists an overview of fabrics and leathers that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for COM/COL is listed below. Questions about the COM/COL program and requests for assistance may be directed to your COM representative at:

(616) 654 3400

(866) 854 3048 EXT 6543400

### Customer's Own Material/Customer's Own Leather Warranty

Herman Miller does not warrant COM/COL textiles. COM/COL textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM/COL textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

### Customer's Own Material/Customer's Own Leather Pricing

COM is a Category 1 fabric. There are no application charges for COM fabrics. COL is a Category 7 textile; refer to prices on specific products to determine the application charge.

Ordering and payment for COM/COL textile yardage are the responsibility of the customer and the textile supplier.

If desired, Herman Miller will purchase COM textiles directly from Maharam, Camira, C.F. Stinson, Guilford of Maine, Luna Textiles, Momentum Textiles and Ultrafabrics to simplify ordering and shipment. For this service, refer to the Supplier Connection program.

## Textile Approval

1. Select a COM textile and a Herman Miller product.
2. If your textile does not show as tested in Omni, submit a request. You will be required to select a specific color of the textile and feature of the product to test, i.e., seat, back, etc.
3. Herman Miller will notify you of approval or disapproval within 4 days from receipt of the test yardage.

## Ordering Products with COM/COL

1. Refer to the specific products to determine the yardage required for COM/COL textiles.  
*Note: Additional yardage may be needed due to the unique characteristics of a textile.*
2. Obtain the COM ID# in Omni. If the color you are ordering does not have a COM ID# assigned, click "Create ID".
3. Enter your order on Order Manager in Omni.
4. Upon receipt of your purchase order, Herman Miller will send you a PO acknowledgment.
5. Arrangements must be made for the textiles to be shipped from the supplier to Herman Miller for application to the seating products. Textiles must be tagged with the assigned identification number and the roll yardage quantity. See Omni for shipping procedures and current shipping addresses or contact a COM representative at (616) 654 3400 or (866) 854 3048 EXT 6543400.

Products will be scheduled for production when COM/COL textiles are received at Herman Miller. Standard lead times in effect at that time will apply.

*Note: If textiles are to be purchased directly by Herman Miller through the Supplier Connection program, Herman Miller will handle the ordering and shipping process and will schedule your order for production upon receipt of your purchase order (dependent on textile availability). Refer to the Supplier Connection program for more information.*

Customer’s Own Material/Customer’s Own  
Leather Order Information — Seating

continued

Supplier Connection

Program Overview

The Supplier Connection program is a service offered by Herman Miller to purchase approved COM textiles directly from Maharam, Camira, C.F. Stinson, Guilford of Maine, Luna Textiles, Momentum Textiles and Ultrafabrics. When you select a textile through this program, Herman Miller will facilitate the ordering, scheduling, and shipment of the textile directly with the supplier.

Suppliers included in the Supplier Connection program keep an active inventory of textiles that are pre-approved for application to Herman Miller products. Pre-approval applies only to the suitability of a textile for manufacturing and application to a Herman Miller product. Omni provides an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for the Supplier Connection program is listed below. Questions and requests for assistance may be directed to your COM representative at:

(616) 654 3400  
(866) 854 3048 EXT 6543400

Supplier Connection Warranty

Textiles purchased by Herman Miller through the Supplier Connection program are COM and are not warranted by Herman Miller. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Supplier Connection Pricing

Textiles purchased by Herman Miller through the Supplier Connection program are COM. COM is a Category 1 fabric. There are no application charges for COM fabrics.

Payment for textiles purchased by Herman Miller through the Supplier Connection program is the responsibility of the customer or dealer. Herman Miller will invoice the order at a total product cost based on the supplier’s price published at the time of the order.

Textile Approval

- 1. Select a COM textile and a Herman Miller product.
- 2. If your textile does not show as tested in Omni, submit a request.  
You will be required to select a specific color of the textile and feature of the product to test, i.e., seat, back, etc.
- 3. Herman Miller will notify you of approval or disapproval within 4 days from receipt of the test yardage.

Ordering Products with Supplier Connection COM

- 1. Identify and include the following information on your purchase order:
  - Product number and option
  - Herman Miller’s COM identification number
- 2. Enter your order on Order Manager in Omni.
- 3. Upon receipt of the purchase order, Herman Miller will process your order and send you a PO acknowledgment. Herman Miller will determine the yardage required to produce your product and will order and schedule for delivery the required textile. Standard lead times in effect at the time the textile is allocated at the supplier will apply to products ordered through this program.

#### Distribution Rights

Working together since 1956, Herman Miller and Vitra are the authentic sources of designs by Charles and Ray Eames, Alexander Girard, and George Nelson. All the designs shown in this book are protected by law. Herman Miller has obtained all rights to make and sell these designs. Also, Herman Miller holds exclusive worldwide manufacturing and distribution rights for these products with the following exceptions:

Charles and Ray Eames, George Nelson, and Alexander Girard—Worldwide distribution rights for furniture in all areas except Europe and the Middle East. For those areas, please contact Vitra.

Isamu Noguchi—Worldwide distribution rights for the Noguchi Rudder Table. Distribution rights for the Noguchi Table in North America and Central America only. For all other areas, please contact Vitra.

Magis—Exclusive distribution rights in the US and Canada. For all other areas, please contact Magis.
