Bradford Stuart Industries Calibration Kits are designed to calibrate various models of gas monitoring equipment. They feature a twist on/off pressure reducing regulator and flow-meter, to give you precise flow for most popular machine mounted, hand-held, and environmental sensors.

STANDARD KITS

Available in three models:

BSI Cal-Kit 1

- Portable Storage Case
- 2 Regulators (Standard)
- 1 Flow-meter
- 1 Cylinder 50 PPM Carbon Monoxide
- 1 Cylinder Pure Air

BSI Cal-Kit 2

- Portable Storage Case
- 2 Regulators (Standard)
- 1 Flow-meter
- 1 Cylinder 2.5% Methane
- 1 Cylinder Pure Air

BSI Cal-Kit 3

- Portable Storage Case
- Regulators (Standard)
- 1 Flow-meter
- No Cylinders

GASES & EQUIPMENT:

- 2.5% Methane - 103-25
- Pure Air - 103-00
- 50 PPM CO - 103-50CO
- * 25 PPM CO - 103-25CO
- * 20 PPM NO₂ - 075-20NO₂
- * 20 PPM NO - 075-20NO
- * 50 PPM NO₂ - 075-50NO₂
- * 25 PPM H₂S - 075-25H₂S
- * 10 PPM H₂S - 075-10H₂S
- * TRI-GAS (50 PPM CO, 2.5% CH₄, 20% O₂) - 103-TRI

Other Combinations Available By Request

- Carrying Case - 103-CASE
- Regulator (.5 lpm) - CPR-3
- Tubing (3 ft. lengths) - SVEB20
- Flow Meter - VFA-21-BV

Other gases and equipment available by request
