

WASHINGTON STATE DAHLIA SOCIETY
MARCH MEETING, MONDAY, MARCH 20TH
7 PM, FIRCREST COMMUNITY CENTER

At our March meeting Bob is going to give a presentation on "Testing for Herbicides"!!! Something that is VERY important and can greatly impact the growth and health of your dahlias! It should be very interesting!

We will also be having guest speakers on a very important question. Does it help, or hurt??? Or make no difference??

I want to give a BIG THANK YOU to all those who helped pak tubers last month for our Dahlia Sales! Many hands made lite work of it! We were able to pak over 2,000 tubers! Our first sale is Saturday, March 18th at the UPS Field House in Tacoma. If you missed having a shot at the dahlias, you might want to try to come to the sale. UPS is usually Noni a big seller and we sell out of many varieties! There are lots of wonderful varieties to choose from. ALSO, if you have any you would like to donate, I'm still accepting donations as this is only the first of 4 sales we are having!

If you see your name, talk to Ken Walton at the meeting!

There will be a sign up sheet for the Spring Fair, which is April 20—23! Check it out and see if there is a time slot that you would be able to help out in. Also, let me know if you want tickets to get in. I should have them at the meeting next month.

I'm bringing treats this month, but we need volunteers for the rest of the year. Please sign up
