

THE TOP 100 MUSLIM CONTRIBUTIONS to AMERICA

	THE AMERICA YOU ONCE KNEW	THE NEW ISLAMIC AMERICA
1	<p>Comfortable Language - Our language and daily TV news reports were familiar and we could easily understand most of what was happening around us. We didn't need to learn Arabic terminology and barbaric cultural norms to understand what was just plain common sense.</p>	<p>Since the Islamic takeover of the US embassy in Tehran in 1979, all we hear, everywhere, is Islam this and Islam that. Jihad, Muslim, martyr, Allah, allahu akbar, Sharia Law, hijab, hijra, etc.</p> <p>We can no longer even turn on our TV's without experiencing feelings of anxiety, knowing we will probably hear about another Muslim running wild and trying to kill someone or blow something up. All this with a population of only 1%. What can we expect at 5-10% like they now have in France? Genocide?</p>
2	<p>Trusted Neighbors - We lived in a land where we trusted our neighbors, helped one another, made friends easily and felt like the large majority of Americans were generally working together for the common good of all.</p>	<p>We can no longer trust our neighbors, especially where our kids are concerned. Muslims from Sharia Law-loving countries are pouring into quiet American communities and bringing their "culture of death". A high number of them are full of hatred for Americans and more than a few are bomb makers, beheaders, rapists and pedophiles.</p>
3	<p>Traditional Holidays – We all celebrated our most cherished holidays like Easter, Christmas, Thanksgiving, Hanukkah, July Fourth, Labor Day, etc., that brought us all together for a time of joy and good tidings. Love of country, kindness and friendship have always been the underpinnings of American celebrations.</p>	<p>Our holidays are now under constant attack under the guise of not being "inclusive enough" of Islamic and other cultures. A majority of Muslims refuse to celebrate most American holidays and instead have their own exclusive holidays that celebrate ancient Islamic massacres with shocking blood-letting rituals and inhumane animal slaughter.</p>
4	<p>Childrens' Celebrations – American kids from all cultures celebrated Valentine's Day, Halloween and other occasions as a fun time for children and adults alike.</p>	<p>Muslims are now demanding that these celebrations be stopped as they are not "inclusive enough" or are unIslamic. Many schools are now banning these activities completely to appease Muslims intent on destroying American culture.</p>

	THE AMERICA YOU ONCE KNEW	THE NEW ISLAMIC AMERICA
5	<p>Fun Vacations - Travel by air was fun for the whole family and the delays were reasonable. Airport personnel treated us with respect and greeted us with a smile.</p> <p>Our bags didn't need to be scanned for explosives, we weren't needlessly exposed to radiation from X-Ray machines, we didn't have TSA laughing looking at pictures of our private parts and we certainly didn't have agents groping and fondling our children.</p>	<p>Air travel is now a nightmare, thanks to Muslims. It has been transformed from a glamorous, adventurous activity to a cramped, hectoring, inhospitable affair, with glum, shoeless hordes holding up their beltless trousers while jumping through intrusive and inefficient checkpoints. Passengers are poked, prodded, threatened, herded like cattle, and treated as likely criminals while America is hamstrung from efficiently focusing on the true source of the problem. Meanwhile, Muslims in burqas breeze through the checkpoints like Americans once did before the Islamic invasion started.</p>
6	<p>Trusted Educators – When we sent our kids to school, we didn't worry about what they were being taught. We knew that nearly all teachers had the students' best interests in mind and were focused on all students becoming well-educated, good civic-minded citizens.</p> <p>Parent Alert! -----></p>	<p>Islamic indoctrination is rampant at schools and universities all across America, a practice accommodated by, and funded by, an uninformed American public. Leftist teachers (<i>in cahoots with relentless Islamic groups</i>) are now more focused on a political agenda than they are in delivering a quality education.</p> <p>(The citation below contains a mind-boggling list of concessions allowing Islamic indoctrination of our kids).</p> <p>http://www.akdart.com/islam4.html</p>
7	<p>Patriotic Students – students from all cultures assimilated to the American way of life by honoring the traditions of patriotism like saluting the flag and saying The Pledge of Allegiance.</p>	<p>The Muslim Brotherhood front group CAIR discourages Muslim students from taking the Pledge of Allegiance. Many Muslims now refuse to stand for the National Anthem or to place their hands over their hearts when the Pledge is recited. Disloyalty to America is on open display in classrooms all across America and Muslims are leading the way.</p>

	THE AMERICA YOU ONCE KNEW	THE NEW ISLAMIC AMERICA
8	<p>History Books Taught History – children of America were taught the history of the U.S. and the world exactly as events happened. There was never any confusion about the truth of the history being taught or about the true intentions of the teachers or the school board members.</p>	<p>Subversive Muslim groups, along with the liberal Left-wing and Pearson Publishing (<i>semi-owned by Qatar,</i>) have infiltrated educational institutions and conspired to distort history to a point that it is now unrecognizable. Islam is consistently glorified and white-washed in textbooks while Christianity and Judaism are made out to be the historical aggressors. In addition, the U.S. is routinely demonized while Islamic countries are held in high esteem and as model examples This is happening all over America in K-12 as well as in most colleges.</p>
9	<p>Kids' Homework Made Sense – childrens' homework was basically standard fare and primarily consisted of reading, writing and arithmetic. Parents were usually able to easily assist if the kids needed additional help.</p>	<p>Much of the homework in many schools is now taken from the secret lesson plans of Common Core (<i>partially created and funded by Muslim countries</i>) which focuses on indoctrination of Islam. This includes writing about the Pillars of Islam, memorizing and writing in Arabic the statement of faith of Islam (<i>Shahada</i>) and composing stories to their parents about their future conversion to Islam. These assignments are backed up in class by role play exercises to dress like Muslims and learn Islamic culture (<i>like physically trying on headscarves</i>) and Islamic vocabulary.</p>
10	<p>Worry-free Public Gatherings - going to football games, parades and special events were always lots of fun. And, millions of Americans never gave a second thought to going to the mall on the weekends to “shop 'til they dropped”.</p>	<p>The escalating Islamic threat that any Muslim can “go postal” at any time and set off a bomb, start a stabbing spree or begin shooting into crowds of innocent and unsuspecting Americans has left families fearful of attending large-scale events and venues. In addition, the presence of new security requirements has now made attendance at some events so miserable and inconvenient that it is more trouble to go than it is worth.</p>

	THE AMERICA YOU ONCE KNEW	THE NEW ISLAMIC AMERICA
11	<p>Law Enforcement Was Highly Regarded – the great majority of our citizens of all cultures respected agencies like the local police, the FBI and CIA and willingly cooperated to help uphold law and order.</p>	<p>Islamic supremacist organizations like the Council on American-Islamic Relations (CAIR) now brazenly display and distribute posters that encourage Muslims to NOT cooperate with the FBI . In addition, they are instructed to immediately bring in lawyers, even when being asked simple routine questions about radicalized members of the Muslim community. Additionally, many of the leaders of the Black Lives Matter (BLM) movement are Muslim and routinely encourage attacks on law enforcement personnel.</p>
12	<p>Immigrants Blended in Politically – immigrant citizens of all cultures accepted the America way of life and if they decided to participate in the political process they willingly became Democrats, Republicans or Independents.</p>	<p>Islamist groups in America have become very involved in the political process and have also become well-entrenched in highly-placed government positions of power and authority. They are contributing enormous sums of money to Left wing Liberal Democrats and in return are demanding support for suppressing all negative speech about Islam and an escalation in forcing the tenets of Sharia law down Americans' collective throats. Several new Islamic organizations like the U.S. Council of Muslim Organizations (USCMO) and the American Muslim Political Action Committee (AMPAC) were recently created to bring all Muslims in America together to vote as one block and essentially become the basis for a new political party as soon as their numbers are large enough. As the Islamic population grows exponentially, this group will be able to totally change the outcome of elections in America in the not too distant future.</p>

	THE AMERICA YOU ONCE KNEW	THE NEW ISLAMIC AMERICA
13	<p>America Was Financially Sound – the federal government always had a reasonable amount of resources to fund the military as well as numerous social programs. Social Security and a full complement of medical services at minimal cost was something that we could all count on for our Golden Years.</p>	<p>War after war with Islam has drained America of her vast reserves. Some estimates put the monetary expenditures (<i>so far</i>) at over \$3,000,000,000,000 (trillion) with no end in sight. In addition, the huge expansion of the TSA as well as the creation of the DHS (<i>due to Muslim terrorism inside America</i>) has decimated America's budgets. Large cuts to Social Security are projected in the near future and Medicare has already been gutted with premiums skyrocketing and cost of living adjustments nearly non-existent. These huge expenditures for trying to prevent Muslim terrorism at home will be felt by Americans for decades to come.</p> <p>The Increased cost are not confined to the government alone. Every type of business is being affected as well. From increased air fares to escalating shipping costs to higher priced groceries and drugs, all Americans are paying higher and higher prices as costs escalate due to the security needed to thwart the scourge of Islamic terrorism.</p>
14	<p>Churches Were Churches – there was never a question about which religions would worship at a church and all churches were expected to display crosses to represent Christianity. When churches were sold, they were usually sold to another group of Christians, perhaps for a different denomination.</p>	<p>Churches all over America are being sold to Muslims to be converted to mosques. In several instances, such as at the Washington National Cathedral, Muslims have held prayer services. In others, Muslim imams are leading Christians in prayer as a part of the deceptive interfaith dialogue scams that are now running rampant between Islamist organizations and Christian / Jewish organizations. In churches that welcome refugees, crosses are being covered or taken down to “not offend” Muslim refugees and in Catholic schools crosses are now being removed so as not to offend Muslim students.</p>

	THE AMERICA YOU ONCE KNEW	THE NEW ISLAMIC AMERICA
15	<p>Privacy Was Assured – Americans felt that their right to reasonable privacy was intact and there was no need to worry excessively about government intrusion or intervention.</p>	<p>The privacy of ordinary Americans has now been sorely compromised thanks to the constant threat of Islamic terrorism. We now routinely accept surveillance cameras everywhere, telephone conversation monitoring, drones over our homes with cameras, cash transaction controls, reams of extra paperwork to apply for anything and government snooping at an unprecedented level.</p>
16	<p>Employers Set Fair Rules for All – Most employers had rules that were fairly applied to everyone and employees were willing to obey those rules in exchange for fair pay and decent treatment.</p>	<p>Employers all across America are now under constant assault by Muslims that threaten to sue or walk out if they do not get special treatment. Muslims are shutting down assembly lines, demanding special breaks all throughout the day to pray, demanding that foot-baths and prayer rooms be installed, refusing to sell alcohol at checkouts and refusing to drive delivery trucks that carry pork products, Taxi drivers are also refusing to carry passengers with dogs or alcohol and routinely stop and block traffic to get on the hood of their taxi, roll out the prayer rug and pray for your demise.</p> <p>When employers push back, they are sued for large damage settlements by uncooperative Muslims (<i>who are supported by CAIR and a corrupt EEOC under Liberal control</i>). Muslims are not only suing scores of America's largest companies, they are also suing police, the CIA, the FBI, the federal government and any individual that pushes back on their demands for more and more Sharia law accommodations.</p>
17	<p>Immigrants Adapted to Western Norms - The vast majority of immigrants to America from the 1920's to the 1990's conformed to the customary clothes worn by Westerners.</p>	<p>Muslims refuse to assimilate. They MUST look different to display their supremacism. As an example, headscarves are NOT a religious requirement but merely a political statement concocted by the Muslim Brotherhood. These "hijabs", as they like to call them, have recently been likened to the hoods worn by the hate group called the Ku Klux Klan.</p>

	THE AMERICA YOU ONCE KNEW	THE NEW ISLAMIC AMERICA
18	<p>Gov't/Military Not Intimidated – Our Congressmen, Senators and military men and women were usually worry-free when it came to being confronted by acts of intimidation.</p>	<p>Muslims now regularly commit acts designed to intimidate our politicians (<i>but usually look innocuous</i>). Every year, Muslims hold “Muslim Day” at Capitol buildings throughout America where hordes of Muslims descend on our politicians like locusts to show their growing numbers and demand more Sharia law enforcement. They roll their prayer rugs out and block hallways or pray by the hundreds on the Capitols' manicured lawns.</p> <p>Military families are being threatened with letters to wives at home with children while husbands are deployed, and threatening notes are left on cars as well. Hacking of government computers to build “hit lists” of soldiers' home addresses to be posted on Islamists websites are now common.</p>
19	<p>People With Disabilities Were Respected - A blind person would find most people willing to help her cross the street and simple common courtesy would find millions of Americans holding the door for someone in a wheelchair.</p>	<p>Muslim taxi drivers from New York to California are refusing to pick up those with a seeing-eye dog. If anyone gets into their taxi with a dog, they are dragging them out, sometimes physically harming the dog and throwing the passenger's luggage in the street.</p>
20	<p>Men and Women Were Equal – public swimming pools and gyms have always been a places where men and women could freely associate. In religious services, men and women always sat and worshiped together as a family or with friends of the opposite sex.</p>	<p>All across America Muslims are demanding (<i>and getting</i>) separate times for women's swimming. Windows are being covered so no man can even look in. This is happening at prestigious universities, at the YMCA and even in public pools. Take a look at any mosque and watch as women are forced to use the side or rear door and sit in isolated places in the rear while men come in the front and sit wherever they chose.</p>

	THE AMERICA YOU ONCE KNEW	THE NEW ISLAMIC AMERICA
21	<p>Frank Discussion of Religion was the Norm - Religious criticism was carried on freely in academic circles and elsewhere, and was never stigmatized.</p> <p>The Muslim Brotherhood-concocted term "Islamophobia" didn't exist.</p>	<p>The term "Islamophobia" is in widespread use all over the world today and is calculated to silence criticism, or even discussion, of Islam. It a favorite in the vocabulary of the Left and challenges our already fragile Freedom of Speech.</p>
22	<p>Americans Did Not Hesitate to "Call a Spade a Spade." - the foolishness of "Political correctness" was unheard of in times gone by.</p>	<p>"Political correctness" has put a dangerous damper on frank speech about Islam; in journalism, on campuses, and in politics, politically-correct speech codes demonize any analysis of Islam as "racism" or "hate speech," among others. This is another serious threat to our Freedom of Speech.</p>
23	<p>Billboards were Inoffensive - You didn't have your intelligence insulted by billboards along the highway proclaiming outrageous and annoying lies, such as how peaceful a man Muhammad was.</p>	<p>Here is an example of how Muslims try to deceive the public into believing that theirs is a "religion of peace." ICNA, a Muslim Brotherhood front group, has erected a series of billboards nationwide that paint Muhammad in a misleadingly favorable light. Yet another reminder of the unwelcome incursion of Islam into our lives.</p>
24	<p>Mosques were a Rarity in America - The chances of there being a mosque near where you lived or worked were slim.</p>	<p>Mosques are now everywhere, depressing surrounding property values and disturbing those within hearing 5 times a day by a muezzin blasting the call to worship (adhan). It is not unreasonable to ask the question: Does a mosque in an American town or neighborhood represent a benign house of worship or yet another scheme to oust traditional American values and replace them with Islamic practices, laws, and beliefs? To believe the latter is neither evidence of bigotry nor misguided caution, but a reasoned response to stated Islamic goals and past Islamic actions.</p>

	THE AMERICA YOU ONCE KNEW	THE NEW ISLAMIC AMERICA
25	<p>Freedom to Move in Streets and Other Public Places - It was unheard of to have traffic blocked by hordes of worshipers praying in the street.</p>	<p>It is not uncommon for Muslims, as a show of strength or as an intimidating tactic, to pray en masse in public places, including busy city streets. This is seen wherever Muslims form a sizable part of the population. It is thus quite common in European cities, but (for the moment) less so in American ones.</p>
26	<p>Humane Animal Slaughter Methods - Cruelty to animals resulting from inhumane slaughter methods, such as those employed in Islamic <i>halal</i> slaughter rituals, used to be uncommon.</p>	<p>With growth of the American Muslim population, there is an increase in cruelty to animals as a result of the inhumane methods employed in halal slaughter. For example, <i>halal</i> slaughter requires the animal be bled out in agony while sick people who get off watching that kind of thing have a “festival.” Animals watch other animals die during the blood-letting festival, smelling their fear and raising their own stress. Interestingly, America's animal rights organizations have been silent.</p>
27	<p>Only Kosher- or non-Kosher Food - Americans did not demand special food be made available in every cafeteria or shop, and they certainly didn't get Federal subsidies to pay for those unrealistic demands.</p>	<p>Muslims have not only been successful in getting Americans to accommodate their demands for halal food, but have actually succeeded in getting the Federal Government, at US taxpayers' expense, to subsidize its provision in public schools.</p> <p>This financial blood-sucking of the American taxpayer is one of many examples of how Muslims get non-Muslims to pay the jizya (poll) tax, a form of Sharia-mandated tribute that Muslims believe is their due. In addition, a portion of all halal certification fees, paid by retailers, is mandated to go toward the financing of terror (jihad).</p>

	THE AMERICA YOU ONCE KNEW	THE NEW ISLAMIC AMERICA
28	<p>US Embassies Had Reasonable Missions US embassies overseas were there to help assist Americans traveling abroad, and Americans did not have unreasonable expectations or demands.</p>	<p>Seasoned pros at playing the 'victim' card, Muslims in America are taking the concept of 'chutzpah' to a whole new level by demanding that the U.S. government give them special protection during their pilgrimage to the Hajj in Mecca, Saudi Arabia. The Hajj experience includes ancient rituals like throwing stones at pillars, barbaric animal sacrifice and head shaving.</p>
29	<p>Requests for Leave from Work were Reasonable – Americans respected their employers and realized that the employer would make reasonable accommodations for requested time off. Employers rarely worried about lawsuits from employees.</p>	<p>Muslims all across the U.S are now suing their employers in droves while screaming "discrimination" about anything and everything. Frivolous lawsuits are driving costs of doing business through the roof for companies like UPS, Hertz, McDonald's, Whole Foods, Sears, Cargill Meats, Star Transport, police departments, etc.</p> <p>Here is just one example of Muslim 'chutzpah' that paid dividends: In 2008, less than a year after starting her job as a math teacher at MacArthur Middle School in Berkeley, Ill., a Muslim named Safoorah Khan asked for 19 days of unpaid leave (three weeks plus two weekends) to go on the hajj to Mecca. The school district denied her request, which led to a lawsuit being filed on her behalf by the Obama Justice Department, resulting in an award of \$75,000 to the teacher.</p>
30	<p>Universal Respect for Decorum and Procedure in Law Courts - Americans across the board had great respect for the customs and rituals of our courts.</p>	<p>Disgraceful accommodations have been made for Muslims who, citing religious reasons, refuse to rise when judges enter and leave courtrooms.</p>

	THE AMERICA YOU ONCE KNEW	THE NEW ISLAMIC AMERICA
31	<p>Americans Celebrated Holidays Representing Only American Values - Sensible Americans never considered celebrating holidays that glorified ancient events with inhumane animal slaughter.</p>	<p>Islam-clueless non-Muslim Americans have expressed solidarity with Muslims to the extent of even fasting during Ramadan. Regrettably, Americans as a whole (and many Muslims too!) are pretty ignorant regarding what the Islamic Holidays are all about. Our paper on the Islamic Holidays, retrievable from the home page of www.SneakyIslam.com, is likely the only one in existence written on this subject <i>from a non-Muslim perspective</i>.</p>
32	<p>White House events Reflected American Values – Christmas parties and Easter Egg hunts on the White House lawn were the norm.</p>	<p>The White House now funds large-scale Iftar dinners to celebrate the conclusion of the Islamic Ramadan fast. Terror-linked individuals are regularly invited to such events, which have been an institution at the White House since the days of the Clinton Administration. Visits to the White House by Muslim Brotherhood-linked persons has become a regular occurrence since the Obama administration took office.</p>
33	<p>US Court Schedules Operated According to American Tradition - US court schedules were designed to accommodate the majority population's Judeo-Christian religious calendars and any except was a rare event.</p>	<p>American courts are now routinely accommodating Muslim criminals and terrorists by rescheduling hearings because of conflicts with Ramadan.</p>
34	<p>American Jurists were Pro-American across the board - It was inconceivable that a mainstream legal organization in the US would openly declare a seditious agenda without fear of prosecution</p>	<p>The mainstream, influential Assembly of Muslim Jurists of America has the declared aim of superseding the US legal code with a Sharia-based system. Sharia law, as practiced in Islamic countries, supports such punishments as the stoning of adulterers and severing of limbs for theft.</p>

	THE AMERICA YOU ONCE KNEW	THE NEW ISLAMIC AMERICA
35	<p>Safe and Pleasant Travel to Europe - It was never necessary to take Muslim populations and activities into account when planning European tourist destinations.</p>	<p>Now, due to mass immigration of Muslim "refugees" into Europe (immigration Jihad, or Hijra), many places in Europe are no longer as clean or as safe (especially for Jews) as they once were. Sexual assault of non-Muslims has become commonplace and has even reached epidemic levels in countries such as Germany and Sweden.</p>
36	<p>Women in Public Places Dressed Like American Women - The sight of women wearing hijabs (Muslim headscarves) in public used to be very unusual, just as it was in Egypt before the Muslim Brotherhood came to power.</p>	<p>Hijabs, a political statement signifying support for Sharia law on the part of the wearer, and by implication Jihad, are now a common sight all across America. They are a daily reminder of the Jihad against the West and that the Trojan Horse of Islam has arrived.</p>
37	<p>Businesses Were Free to Hire Whom They Wished - Retailers in America used to have a free hand in deciding whom to hire, and whom not to hire.</p>	<p>A terrible precedent was created when the US Supreme Court ruled against Abercrombie and Fitch for failing to accommodate a job applicant who wore a hijab, even though the sight of the supremacist symbol was offensive to customers. Thus, another unwelcome accommodation <i>to Muslim demands</i>.</p>
38	<p>Male and Female Employees Were Equally Acceptable to the American Public – It would have been inconceivable for hospitals and stores to be made to comply with "religious" demands to replace male with female staff.</p>	<p>Islamist Somalis in America have put pressure on hospitals and stores, forcing them to accommodate their demands to hire female-only obstetrical staff and salespersons, respectively. In some instances, Muslim males are becoming violent if a male doctor is assigned to a female patient.</p>
39	<p>Postage Stamps Reflected American Values - Postage stamps honored American heroes and pioneers of times gone by.</p>	<p>The US Postal Service has issued stamps honoring the two Islamic Eid holidays, which either glorify the Quran or celebrate Qoranic Biblical corruption. (See our <i>Islamic Holidays Guide</i> at www.SneakyIslam.com).</p>

	THE AMERICA YOU ONCE KNEW	THE NEW ISLAMIC AMERICA
40	<p>American Soldiers Dressed Like American Soldiers – the military imposed strict rules of dress conformity, which were widely accepted by all.</p>	<p>There have been demands from Muslimas (Muslim females) to be allowed to wear hijabs at military parades, contrary to military regulations that ban religious garb that is exposed or that covers the uniform.</p>
41	<p>American Soldiers Had American Faces – American soldiers were taught to present a clean and conforming personal appearance to emphasize the “group” vs. the individual.</p>	<p>The Pentagon has caved to pressure from Muslim groups by relaxing its rules and allowing the wearing of Islamic beards. In imitation of Muhammad, devout Muslims grow beards, but not mustaches, and they often dye their beards red.</p>
42	<p>Public Servants Swore on the Bible - It used to be standard practice that officers of the Government and Law took their oath of office on the Bible, not on scriptural works antithetical to American laws and values.</p>	<p>A US Congressman (Keith Ellison, a.k.a. Hakim Mohammed) and a NY civil court judge took their oaths of office on the Koran, a book whose precepts explicitly contradict those of the US Constitution. How do average Americans feel about having Sharia-supporting Muslims drafting and administering their laws?</p>
43	<p>American Heroes Were Honored in Congress - It used to be customary to invite American heroes to national events such as the State of the Union Address.</p>	<p>Representatives of CAIR, a terrorist-supporting organization and an unindicted co-conspirator at the HolyLand Foundation trial in 2007, were invited by the President of the United States to the State of the Union Address in January 2016. Should nefarious individuals such as these be allowed to pollute our most hallowed institutions?</p>
44	<p>America's Allies Trusted Her - There was a time when we had the trust of our traditional allies, such as Israel.</p>	<p>Now, due to a groveling Islamophilic foreign policy, allies have been abandoned and enemies, such as Iran, embraced. Iran, a threshold nuclear power, is a serious threat to our national security.</p>

	THE AMERICA YOU ONCE KNEW	THE NEW ISLAMIC AMERICA
45	<p>Attacks on America Were Never Celebrated in Any Way Whatsoever - In past years, a proposal to build a triumphalist mosque in the heart of Manhattan at the site of a major Jihadist terror attack would have been dismissed as sheer fantasy.</p>	<p>Not only were plans to build a mosque at ground-zero floated, but were supported by prominent non-Muslims of the Left, such as then-mayor of New York, Michael Bloomberg. Fortunately, this project has never gotten off the ground, although some Muslims are still trying to make it a reality. An important concept in Islam is to always build a victory mosque on a site that was considered conquered for Islam.</p>
46	<p>American Courts Dispensed Only American Law - Islamic Sharia courts, superseding American law, were unheard of.</p>	<p>The adoption of ALAC (American Laws for American Courts) legislation by a growing number of US states is a response to attempts by American Muslims to have Sharia law take precedence over the US Constitution.</p>
47	<p>Americans Didn't Engage with Groups Planning Their Downfall - "Interfaith dialogue" with Muslims used to be an uncommon activity.</p>	<p>Muslims are using "interfaith dialogue," regrettably with the unconditional participation of ignorant and naive non-Muslims, to promote their supremacist agenda. The "interfaith dialogue" sham is a form of Dawa (proselytism), itself an instrument of Jihad. (See our Guide on Interfaith Dialogue with Muslims at www.SneakyIslam.com).</p>
48	<p>Males Committing Crimes Were Identifiable as Males - It used to be unheard of for religious apparel to be used as disguise in the commission of crimes.</p>	<p>Muslim male criminals have been committing robberies and murders by taking advantage of face-and-body-covering Islamic garb to disguise themselves as fundamentalist Muslim women, their true identity thus concealed from law enforcement. (<i>this has been dubbed "burqa banditry."</i>)</p>

	THE AMERICA YOU ONCE KNEW	THE NEW ISLAMIC AMERICA
49	<p>The Tax Code Treated All Religions Equally - There was no exemption from taxation on religious grounds. Nor was exemption from taxation built into US health legislation (<i>until Obamacare, that is</i>).</p>	<p>Under ObamaCare, Muslims may claim a religious exemption denied Christians and Jews, effectively imposing a tax on non-Muslims. Another example of the imposition of the <i>jizya</i> tax on non-Muslims. It is interesting to note that should non-Muslims in Islamic societies decide not to pay the tax, the only other choices, as proscribed by the Quran, are to either convert to Islam or be killed.</p>
50	<p>Cousins Seldom Married Cousins - Inbreeding as a cause of public health effects was an uncommon occurrence.</p>	<p>Consanguineous marriage and inbreeding, rife among Muslims the world over, places an unwelcome burden on a country's health resources on account of higher incidences of mental and other diseases; this is also true of America's growing Muslim population.</p>
51	<p>American Companies Were Patriotic - US companies were not at risk for funding terrorism.</p>	<p>Many major US companies now knowingly engage in Shariah Compliant Finance, a mechanism for siphoning billions of dollars to terrorist organizations through Zakat (religiously-mandated "charity.")</p>
52	<p>Freedom to Protect Our Private Parts - A parent or family member never even considered cutting female children to destroy their future sexuality.</p>	<p>The practice of clitoridectomy, (<i>female genital mutilation</i>), illegal in the US but sanctioned in Sharia law, is being practiced covertly and on Muslim girls, mostly immigrants to America. It is estimated that over 250,000 girls are mutilated each year in the United States alone.</p>
53	<p>Religion Did Not Sanction Wife-abuse - and most certainly not wife-beating!</p>	<p>Wife-beating is sanctioned in the Koran (4:34); no wonder then that physical abuse of Muslim women by their spouses is rampant in the US.</p>

	THE AMERICA YOU ONCE KNEW	THE NEW ISLAMIC AMERICA
54	<p>Medical Organizations Were Ethical – It was unheard of that an American medical body would advocate performing a procedure, serving no medical purpose, on the genitalia of girls.</p>	<p>In an outrageously shameful and despicable accommodation to Sharia law, the American Academy of Pediatrics advocated, in 2010, that American doctors be allowed to stick girls clitorises with a needle to satisfy Muslim demands for female genital mutilation.</p>
55	<p>Freedom of Speech Not Attacked Through Our Legal System - The term "lawfare," implying the draining of one's financial and other resources due to being forced to fight legal battles, had not come into common usage.</p>	<p>The predatory practice known as "lawfare," consisting of the filing of frivolous and malicious lawsuits designed to intimidate and bankrupt defendants critical of Islam, is now commonplace. CAIR and others use this tactic in an attempt to silence public discourse on Islam. This is, in effect, another of the many attacks on Free Speech that Islam employs against America, in furtherance of the aims of the 57-member Organization of Islamic Cooperation's (OIC) Cairo Declaration, a document in direct violation of the Universal Declaration of Human Rights.</p>
56	<p>Holidays on School Calendars Reflected American Values - There were no demands by Muslims to have their holidays placed on the school calendar.</p>	<p>Demands by Muslims to have Islamic holidays placed on school calendars have been shamefully met in several American school districts. These barbaric celebrations, which should have no place in a Judeo-Christian-based society, are discussed at length in our publication, "<u>The Holidays of Islam, a Guide for non-Muslims</u>" on <u>www.SneakyIslam.com</u>.</p>
57	<p>Patriotic Americans ran American schools - When did the US taxpayer ever agree to fund Turkish-run schools in which children are indoctrinated into the ways of Islam?</p>	<p>The US Congress (i.e., the US taxpayer) has voted to fund the expansion of charter schools, including the Turkish Islamist Gulen Movement's schools, of which there are around 150 in the US; over 60,000 students in these schools are being subjected to Islamist indoctrination.</p>

58 **Arabic Language Schools Were Not un-American** - teaching a seditious agenda was not part of our educational system.

American **taxpayers are funding** Arabic language schools in the US that tend to **indoctrinate students in "radical Islam."**

59 **American Schoolchildren Were Not Under Constant Attack to Become "The Other"** - In the olden days, neither non-Muslim nor Muslim school children would have been cajoled into wearing *hijabs* in solidarity with political Islam.

A perfect example of supreme Ignorance of Islam and its tactics was on display in New York, where a high school **accommodated *World Hijab Day*** by having its female students don *hijabs*, *the most visible symbol of a seditious political movement.*

60 **Christians Were Free to Preach the Gospel to non-Christians** – Christianity was encouraged in America and “spreading the word” rarely came under attack.

Incredibly, Christians have been **jailed for preaching Christianity to Muslims** in Dearborn, Michigan, location of the largest concentration of Muslims in America.

61 **Parents Were Very Protective of Their Children** – only a person with severe mental problems would consider murdering his/her own children.

So-called **honor killings** are increasing in number in the US as its Muslim population rises. Innocent children brought here from Muslim lands just want to assimilate and have fun like other kids. Unfortunately, too many times, Muslim parents consider their behavior un-Islamic and murder them to supposedly “save face” in their community.

62 **American News Stations Were Trusted** – newscasters did not attempt to white-wash reality with phony experts.

Instead of interviewing genuine experts on the real Islam, **American television** (*particularly the partially Saudi-owned Fox*) misleads viewers by regularly featuring so-called Muslim “experts” that **peddle a "reformed" Islam that has no basis in Islamic scripture** and which does not, in fact, exist. American TV viewers deserve better than this.

63 **Americans Were Free to Abandon Their Religion Without Fear** - Religious leaders in America would never sanction the death penalty for those leaving any religion.

The **death sentence for apostasy** (*leaving one's religion*), proscribed in Sharia law, has been **sanctioned by American Muslim clerics**.

64 **Religious Groups Did Not Made False Claims of Hate Crimes or Vandalize Their Own Property** – members of different religious groups generally respected each other .

Muslims regularly complain of **anti-Muslim hate crimes** when, in fact, they are **extremely rare** in America and are far outnumbered by antisemitic incidents. Such claims are aimed at instilling feelings of guilt in non-Muslims and obtaining various unearned accommodations for Muslims.

In reality, many Muslims have been caught faking hate crimes and mosque vandalism to gain favor in the media and affect the political agenda of America with the goal:of getting a law passed that outlaws all criticism of Islam.

65 **When Americans Thought of Camps, They Usually Thought of Kids' Summer Camps** - It used to be beyond the imagination that terror-training camps would be allowed to operate unimpeded across the US.

Twenty-two **jihadiist enclaves**, where members receive **paramilitary training**, run by *Muslims of the Americas*, are being allowed to operate freely in several states.

It is beyond belief that these camps have not been summarily shut down by our law enforcement, and those who operate them indicted.

Americans Considered Western Culture Superior - Americans of all stripes and colors were convinced that the “*Land of the Free*” and “*Home of the Brave*” represented the best the world had to offer. American products were coveted the world over and considered to be some of the highest quality goods to be found anywhere.

Individuals from far and wide emulated our culture while entire countries modeled their financial and government systems on those of the United States of America. .

67

Police protection Was Not Needed at Houses of Worship - You were not confronted by police guards when you arrived at your synagogue or Jewish Community Center.

68

The Twin Towers of the World Trade Center Were the Crowning Glory of the Lower Manhattan Skyline - Do you remember the iconic Twin Towers, the pride of the New York business district?

The Leftist-driven moral relativism and multiculturalism agenda, along with the seditious agenda of many Muslims, is to declare that America is racist, unfair and unworthy. Because of this constant drumbeat of fictitious propaganda, many **Americans have lost pride and confidence in the core values that made the American culture superior to that of the Middle East.**

The reality is that it is Muslim activists who are behind many of the uprisings and much of the current wave of dissatisfaction sweeping the country. To see just how wrong they are and to get a feel for America's greatness, one has to look no further than to compare the number of Nobel Prizes earned by America and that of those earned by Islamic countries.

America, at 4.38% of the world's population has 357 Nobel Prizes. All 50 Muslim-majority countries combined, weighing in with 23% of the world's total population, have a whopping 12. That's right, twelve, as of 3/2016.

Because of the threat of Muslim anti-Jewish terrorism, the presence of **armed guards** at establishments **where Jews congregate has become essential.** This is becoming the norm all across the world.

The New York skyline has been **remodeled**, thanks to a spectacular act of **terrorism** driven by the Islamic Jihadist imperative. Around 3,000 innocent Americans were slaughtered that day before the eyes of all the World.

- 69 **American Soldiers Zealously Protected Their Comrades in Arms** – Terrorist attacks on our soldiers by fellow soldiers were unheard of.
- 70 **Our Leaders Epitomized Our Judeo-Christian Heritage** - We used to have presidents and high government officials whom we would never in our wildest dreams have suspected of being followers of Islam.
- 71 **Jewish Students Felt Safe on College Campuses** – It was inconceivable that Jewish students would be attacked for supporting Israel, or simply for being Jewish.
- 72 **An anti-Western Movement That Regularly Beheaded or Burned Alive its Opponents Was Unheard Of** – No one had ever heard of ISIS.
- 73 **Anti-terrorist Governmental Dept. Not Needed** - There used to be no need for a huge government department aimed at detecting and forestalling terrorist threats
- 74 **America Championed Christians and other Minorities in the Middle East** - It used to be unthinkable that widespread, rampant persecution of Christians would be ignored by the US government.

Now, with **Muslim men in the military**, closet Jihadists, or even proclaimed Jihadists such as Nidal Hasan, are mounting **fatal attacks on fellow soldiers**.

President Obama's pro-Islamic sentiments and actions are legendary, but who would have thought that other highly-placed **government officials**, such as the CIA Director, would be revealed as being alleged **closet Muslims**?

It is now commonplace for **Jewish students** at US colleges to be subjected to various forms of **harassment, including violence**, by Muslim student groups. Particularly aggressive is the organization *Students for Justice in Palestine* (as if "Palestine" even exists!)

The vicious Islamic terror group, ISIS, has spread its tentacles far and wide and now has a threatening **presence in all 50 US states**.

The growing threat of Jihadi terrorism has given rise to a bloated and ever-growing bureaucracy, the **Department of Homeland Security** – a **drain** on the already depleted American **taxpayer**.

Islam's political clout, both at home and abroad, has become so powerful that, shamefully, there has been **no meaningful response on the part of the US government** to the **persecution and ethnic cleansing of Christians**, now rampant in the Middle East.

75 **Americans Proudly Defended American Laws and Constitution** – It would in the past have been unthinkable that a significant segment of the US population would be in favor of laws that run counter to traditional American values and the Constitution.

Surveys show that an alarmingly high percentage of the US Muslim population **wants Sharia** as the prevailing law in America.

76 **Prison Inmates Were Not Subjected to Seditious Coercion** - Being populated mostly by Christians, Jews, or atheists, American prisons were never thought of as breeding grounds for Islam.

Tens of thousands of federal **prison inmates**, under the influence of imprisoned terrorists or Muslim chaplains, or to gain protection from other prisoners, have **converted to Islam** while serving time. Imagine the havoc that these inmates can wreak when released into society!

77 **No Threats to Our Freedom of Speech From Foreigners or Seditious** - Our Constitution's First Amendment, guaranteeing Freedom of Speech, was never threatened with elimination.

Thanks to US Administration's collusion with the powerful Organization of Islamic Cooperation) (OIC) **criminalization of criticism of Islam** may, in the not-too-distant future, become a reality in America. This is very likely to come to fruition should a Democrat win the White House in 2016.

78 **Peaceful Places of Worship** - Mosques used to be thought of as innocent places of worship, akin to churches or synagogues.

A large percentage of **mosques** are being used as centers of **Jihadist indoctrination and recruitment**, thus posing a serious security risk to the US. This should not come as a surprise, as no mosque that preaches other than orthodox Islamic doctrine (of which Jihad is a key component) is known to exist.

79 **Rape of Women Relatively Rare** – Rape of women used to be a relatively uncommon occurrence in most American towns and cities.

As has happened in Europe, there is now also a veritable **rape epidemic** in many American towns due to the placement of Muslim "refugees" by the Government. This is the "Hijra" (immigration Jihad) in action.

Slavery in America Had Been Effectively Abolished – Any normal American would surely laugh if you said there are still slaves in America.

Slavery is an old tradition in Islam and is part of Sharia law. Today, **Muslims around the world own over 14 million slaves** and now they are bringing them to America. No one knows how many poor souls Muslims have enslaved in the U.S because they usually live in isolated enclaves surrounded by other Muslims that generally agree with the practice. **Numerous Muslims have already been charged for keeping slaves** brought into the country on phony work visas.

81

A Pro-American Electoral College - Electoral College members were not interested in hidden seditious agendas.

Muslims have become hyper-active in American politics of late. Everywhere you look, there seem to be Muslims in training for political positions. Recently, they have made major moves to **try to influence the presidential elections**. One of those steps was to plant an Islamist on the Electoral College. The foot is now in the door.

82

Native Americans Were Not un-American – American Indians have assimilated well into American society and have contributed to the country's well-being.

Turkish Islamists have been using the cover of Turkish-American relations to sow hateful resentment in the American Indian community. This is being done so that they can add the group to their list of allies in their "Islam against the U.S." agenda .In addition, there have been instances where CAIR has been caught trying to convince the Native Americans that their true heritage is Islam.

83

Security Clearances Worked – Providing security clearances for individuals with an anti-American agenda was unheard of.

Islamists have now obtained **high-level security clearance** for jobs in the high-tech industry and military, resulting in a serious security threat to America. (How was Muslim Brotherhood-connected Huma Abedin ever allowed to serve as chief assistant to the Secretary of State?)

84 **Seditionists Were Arrested and Prosecuted** – it was laughable to think that groups, posing as cultural and advocacy bodies and supporting an open agenda of sedition, would ever be allowed to actively recruit and train an army of followers intent on overthrowing the Constitution.

85 **Public Conferences Did Not Preach Sedition** - Open sedition by religiously-based societies, operating without fear of prosecution, was far from common in previous years.

86 **Americans Promoted Only American Interests Abroad** - It was unheard of for American Muslim groups to actively promote the radicalization of Muslims overseas..

87 **We Believed in a Secure Future for Our Culture** - We were once blissfully confident in America's future, secure in our belief that our fair, decent Judeo-Christian culture would continue to thrive indefinitely.

CAIR, along with other Muslim Brotherhood front groups (ISNA, NAIT, IAP, etc.) were declared "**unindicted co-conspirators**" at the Holy Land terror-funding trial in Dallas, Texas, in 2007. These groups have **never been prosecuted**.

Muslim Brotherhood front groups in the US, such as ISNA, openly convene annual **conferences where Jihadists are given a platform** to incite violence. As an example, Hillary Clinton, as Secretary of State, revoked George W. Bush's ban on the entry into the US of notorious Islamist Tariq Ramadan, grandson of the founder of the Muslim Brotherhood and a sought-after speaker at such events.

US Islamist groups have been **campaigning** to exchange secular authoritarianism for religious authoritarianism in the Middle East, with **dangerous implications** for US foreign policy.

We see posters and banners at Muslim demonstrations proclaiming that "**Islam will dominate the world**" and realize that unless we wake up, recognize and confront the Islamic Jihad in all its aspects, this prediction could yet become a reality.

Everyday Americans Were Safe From Attacks by Religious Zealots - In days gone by, Americans, whether civilian or military personnel, did not have to worry about being threatened with death at the hands of jihadists.

Deaths of Americans at the hands of **jihadists** is now a very real threat. As the Muslim population increases in the United States, so too will the number of Islamic terror attacks. This is because the pool from which the radicals recruit grows bigger every day. Studies show that between 5 – 25% of Muslims in America believe that violence in defense of Islam is justified. The number of potential terrorists therefore grows proportionately with the overall number, even if only a small minority actually plot terror. For a shocking list of the many *deadly* Islamic terror attacks on American soil since 1972, see the citation listed with this item.

89

America's Survival as a Country Was Assured - Practically no one had ever heard of an electromagnetic pulse attack or worried about such an eventuality.

A **Jihad-inspired EMP attack**, with the projected ability to kill 90% of Americans within a year, has become a very real possibility. The military is currently aware of multiple Islamic countries that are exploring this possibility right now. To be effective, a direct hit is not necessary - only an explosion in the atmosphere over the country is required.

90

We Funded Only Our Own Houses of Worship - American taxpayers were not in the habit of funding the renovation of mosques, especially not overseas ones.

American **taxpayers have been burdened** to the tune of \$770,000,000 because of our Islamophile president's decision, in a disgusting display of appeasement, to **fund the renovation of mosques** in the Islamic world..

91

We Assumed That Americans Who Looked and Acted like Us Shared Our Values - We never used to think that people in Western garb, behaving like regular Americans, could be closet terrorists.

ISIS has issued an e-book titled "How to Survive in the West," teaching Muslims in the U.S. and elsewhere in the free world to **appear to be secular and moderate** – until the time comes to strike. This is one of the many kinds of *Stealth Jihad*.

We Were Very Proud of Everything NASA Did – To most Americans, NASA served as a true inspiration to old and young alike. It represented the *“anything is possible”* attitude displayed by the rugged American spirit and incredible ingenuity.

In a disgraceful **perversion of its mission**, the **NASA** administrator was instructed by President Obama to "reach out to the Muslim world and engage much more with predominantly **Muslim nations to help them feel good about their historic contribution** to science, math and engineering."

93

Our News Media Was Unbiased - Remember the days when the US public, because of our unbiased and honest news media, was well-informed about what was happening in the US and in the rest of the world?

With very few exceptions, today's media outlets are either **slanted towards Islam**, or ignore it altogether. Pamela Geller refers to them as the "enemedia." The result of this bias is an **uneducated public** that is unaware of the considerable threats that Islam poses to our country.

94

Equal Rights for All Americans – It was inconceivable that one could become a second-class citizen in one's own country.

In the Islamic institution known as **dhimmitude**, when Muslims assume governance over non-Muslims the latter are, at best, relegated to the role of second class citizens, having to pay the **jizya tax** and be subjected to other forms of humiliation. With the shameful concessions to Islam that the US has already made, we are already, in many respects, acting like **dhimmis**. Unless America soon reverses course and effectively confronts Islam, full dhimmitude could very well be our future.

95

Freedom of Movement for Writers - Writers and scholars have never had to fear for their safety for expressing the truth.

Heightened security precautions have become essential for every person or organization that writes or speaks out against the threat of Islam. Some of these individuals have been forced to use pen names. Many writers in the U.S. and abroad who speak the truth about Islam have been the target of death threats.

96 **Law-enforcement Well-funded and Manned** - The police in the past have been capable of responding to calls in a reasonably timely manner, and with adequate resources.

Ever since Islamic terrorism reared its ugly head, law enforcement has had to spend inordinate amounts of time preventing terrorism and tracking down terrorists. The time spent on these activities takes them away from keeping us safe from murderers, rapists, thieves and vandals.

97 **Government Understood our Enemies' Doctrines** - the ideas motivating the Nazis and the Communists were well understood and acted upon accordingly.

The U.S. government has failed to grasp and acknowledge Islamic doctrine, thus endangering the security of the United States. A prime example is the **Doctrines of Deception**, used to great effect by stealth jihadists in fooling the American people into believing that Islam is a "religion of peace" and that the intentions of all Muslim groups in the US are benign and beyond reproach.

98 **American TV reflected American Values** - Television programs reflected our Judeo-Christian culture.

The partially Saudi-owned Fox network is currently producing a Muslim family situation comedy that is designed to combat "Islamophobia" by showing supposedly racist, ignorant, xenophobic Americans that, "hey, Muslims are just like us." This misguided effort fails to recognize that the suspicion that Americans have of Islam comes from jihad terror and Islamic supremacism, not from racism and bigotry. American TV ads regularly cowtow to the Politically Correct "diversity" cult by including the inevitable smiling young woman with the hijab (*an ominous political statement*) along with regular Americans. Our television space has also been invaded by the blatantly pro-Islamist network Al Jazeera, based in Qatar.

America's Kids Did Not Join Foreign Terrorist Orgs - our culture, unlike that of Islam, was founded on love, not hate; so, most American kids grew up to be good, productive citizens and rejected ideologies of hatred and murder.

Today, the entire country has become polarized over the issue of Islam. Although Democrats say that their core values are aligned against almost everything that Islam stands for, they still feel compelled to align themselves with the ideology in hopes that they can eviscerate their common enemies, the Republicans and the Conservatives.

No matter how much evidence or proof is offered that Islam's very foundation is based on hate and terrorism, Liberals refuse to listen. Sometimes, they even become violent as they attempt to justify their protection of the group that would gladly kill them, if only their population numbers were large enough.

Meanwhile, **Muslim are laughing it up as Americans are tearing each other apart.** This was precisely what they had planned back as early as 1991 when a blueprint for Islam in America was found in a super-secret hiding place in a routine raid.

Essentially, the Muslim Brotherhood document can be summed up in in one statement that was found within:

The process of settlement is a "Civilization-Jihadist Process" with all the means. The Ikhwan [Muslim Brotherhood] must understand that their work in America is a kind of grand Jihad in eliminating and destroying the Western civilization from within and "sabotaging" its miserable house by their hands and the hands of the believers so that it is eliminated and Allah's religion is made victorious over all other religions.

Muslims are now driving their 1400 year old hatred for "everything non-Islamic" into the hearts and minds of otherwise normal American kids all across the country. And, this is exactly how Islam has devastated every nation it has ever entered.- **corrupt the youth, create dissension and divide and conquer the gullible and unsuspecting nation.**
