

**Marilee (Anshutz)
Wilson-Schwulst
9-23-1943 ~ 7-25-2019**

We have received word that our friend, Marilee has passed. She had had respiratory issues for quite some time. This became extreme with her osteo arthritis problems. We talked a couple of times and she said she was going into hospice and would not be online any further. I received an email from Son Brian that she had passed. (I was delayed getting it because of my online issues) it appears she passed very quickly after getting hospice help.

Her son Brian shared the following note. He also stressed personally when we spoke that her passing was peaceful...and her wishes were to not have a service.

“ My mom passed away peacefully Thursday July 25th with myself and my wife at her side. She is exactly where she wanted to be and she is breathing! She got to meet Jesus! How cool is that?? “

“She was a very special mom, grandma, friend, co-worker, etc.. She always spoke highly of all of her friends, and that includes all of you!”

“Thank you for letting her be a part of your life and accepting her with open arms!”

By Marilee’s request, ‘No service is planned at this time’.

To share condolences w/family...
