

# Welcome to Healing River Chiropractic

Healing River Chiropractic provides chiropractic adjustments in a holistic wellness center with a focus to release and restore the body's health, not suppress or control symptoms. Many are overwhelmed with pain and are desperate for healthcare previously un-remedied by prescription drugs and surgery. Healing River Chiropractic utilizes extremely gentle and powerfully effective holistic techniques to restore and allow your body's own symphony of health to play naturally and beautifully again. Our progressive model of health and unconventionally powerful healing techniques are not found in the Stillwater Valley and rarely elsewhere in the world.

**About the Doctor**

**Dr. Kellie Seth:**

Dr. Kellie Seth graduated from University of Wisconsin-Madison in 1997 with a pre-medicine focus. She accomplished her double majors, Entomology and Zoology, with several academic scholarships and repeated honors on the Dean's list. The year 2001 brought a beautiful daughter to Dr. Seth and her family. In 2006, she became a certified NETA personal trainer where she personally trained individuals and led group exercise fitness classes. Dr. Seth graduated from Northwestern Chiropractic College in 2013 with honors and a focus on Neurology and Nutrition. Dr. Seth currently holds an ambassador role with the Greater Stillwater Chamber of Commerce and serves on the Board of Directors of the River Market Community Co-op.
