

How the *Bookmiser* “I ♥ Books”

Book Subscription Program Works

Enroll a child or teen in our “I ♥ Books” book subscription program. Throughout the year, our staff will ship a handpicked hardcover or paperback to the lucky reader. Share your love of reading, while also supporting your local independent bookstore.

We carefully select each book based on the information you provide, including the recipient’s reading habits, age, reading level, and favorite genres. Our selection staff is experienced in child and teen reading habits, and prides themselves on reading widely, enabling our team to choose new and often overlooked titles that are unknown to even the most voracious reader. We always welcome feedback regarding the titles from both the donor and recipient, so we can continue to refine our selections.

Children will receive books based on their age and reading level:

- Children under 3 years of age will primarily receive board books
- Children 3-6 years of age will receive picture books
- Children 7 years of age & older will receive chapter books appropriate for age, interest, & reading level.

Subscriptions are paid in advance:

- \$120 bi-monthly mailings* (February, April, June, August, October, December)
- \$240 monthly mailings

The service is free; the subscription price covers the cost of the book, packaging, tax (if applicable), and postage. Books are not gift wrapped.

Books will be sent out mid-month. Once the payment and completed questionnaire are received by *Bookmiser*, mailings will begin on the next cycle date (*see above).

The initial mailing is sent out with a note card telling the recipient who has purchased the subscription.

Every effort will be made to select books that we feel comply with the questionnaire responses. Recipients are encouraged to send feedback as to their like or dislike of books received. This will better aid us in selecting future books; however, specific books may not be requested and books sent are non-returnable.
