SAFETY ORTS:

Amarillo PD Officer Ross Renner gave safety topic on the Scan Technique::

First look at overall for impression

2nd look at hands for where are they or where are they going

3rd look at the waist band as this is most common place to carry firearms

4th look at immediate area for what is around that person that they could grab

5th look at demeanor for what state the person is in

He also mentioned to work through possible scenarios. Put yourself in a secure position. Watch the area and think through potential situations. Where are the exits. How can a situation work out? Have a plan and purpose in what you're doing.

He also recommend that everyone be familiar with Chapter 9 of the Texas Penal Code.

Jeff Srygley talked about a person who had an AD (accidental discharge) in his house. He wanted to practice dry firing his conceal weapon. He unloaded it and practiced. He then reloaded it and went about his chores in and around the house. He then later unloaded it and practiced. (You can see where this is going...). At some point, he attempted a dry fire and the gun was loaded. Lesson....keep you ammunition away from the gun when you are doing dry fire practice. There should be a distinct separation.

Safety refresher orientation for existing members started in June. This safety orientation is done after the Club meeting. Many have already attended this. Be sure to make one of these sessions as this is mandatory to renew your membership in December.

WHAT'S HAPPENING IN TPPC:

Officer nominations are coming quickly. A nomination committee is needed. Tony Hill, Jerry Beck and Richard DeLosSantos have volunteered. Offices up for election are: President, Operations Vice President, Secretary, and Membership Director. The current officers are NOT planning to run for re-election.

We are looking at slowing down the target retrieval systems. Please be careful to not let them "bump" too hard at either end.

We're open to "ideas" on how to get folks to help let us know what you think !!

Here's an example of an issue ... On 7/7, only 3 people initially volunteered to clean the sand pit. It was discussed that this wasn't enough people to safely do the job and the plan was to close the range until there could be enough people to help. Additional people helped and the pit was safely cleaned.

(this is the main reason why we are looking into bullet retrieval system...this will eliminate the sand pit)

You can email texaspanhandlepistolclub@gmail.com if you have any questions. It is routinely checked by the officers.

Have you gone to the club Facebook page? TEXAS PANHANDLE PISTOL CLUB Please come and join. This will be a good way to communicate information within the club (but not the only way).
