

# NEW SlatTrax<sup>®</sup>

Roll out and retrieve Trax™ to protect turf from heavy equipment at work sites

U.S. Patent No. 8,998,529

## Advantages

- Smart alternative to overlapped plywood, mats, etc.
- Easy to deploy and retrieve
- Increase productivity of work crews (95% less time than plywood)
- Profitable alternative to damaged turf replacement
- Avoid unnecessary injuries
- Savings in storage, replacement and disposal versus options

## Features

- Trax - durable ¾" thick recycled plastics @ 36" or 42" widths
- Deploy (and retrieve) 100' of Trax in less than 2 minutes
- Hydraulically driven system; compact loader attachment
- Trax are linked together with PVC impregnated strapping
- Convenient storage and ease of maintenance
- Made in the U.S.A.

## Simple to Operate

Roll Out...

Dispense Trax™ (100' in 2 minutes)

Release...

Disconnect 25' Sections as Needed (or at end of Total Length) from Spools.  
Trax can be Maneuvered on Ground to Achieve Desired Coverage

## Basic Operation

- Connect attachment plate to loader
- Connect hydraulic lines
- Proceed to worksite
- Deploy Trax with power roll out
- Disconnect Trax from spool at terminal points
- Following work, retrieve under power to roll up Trax
- Return unit to storage

Retrieve

Roll up Trax onto Spools

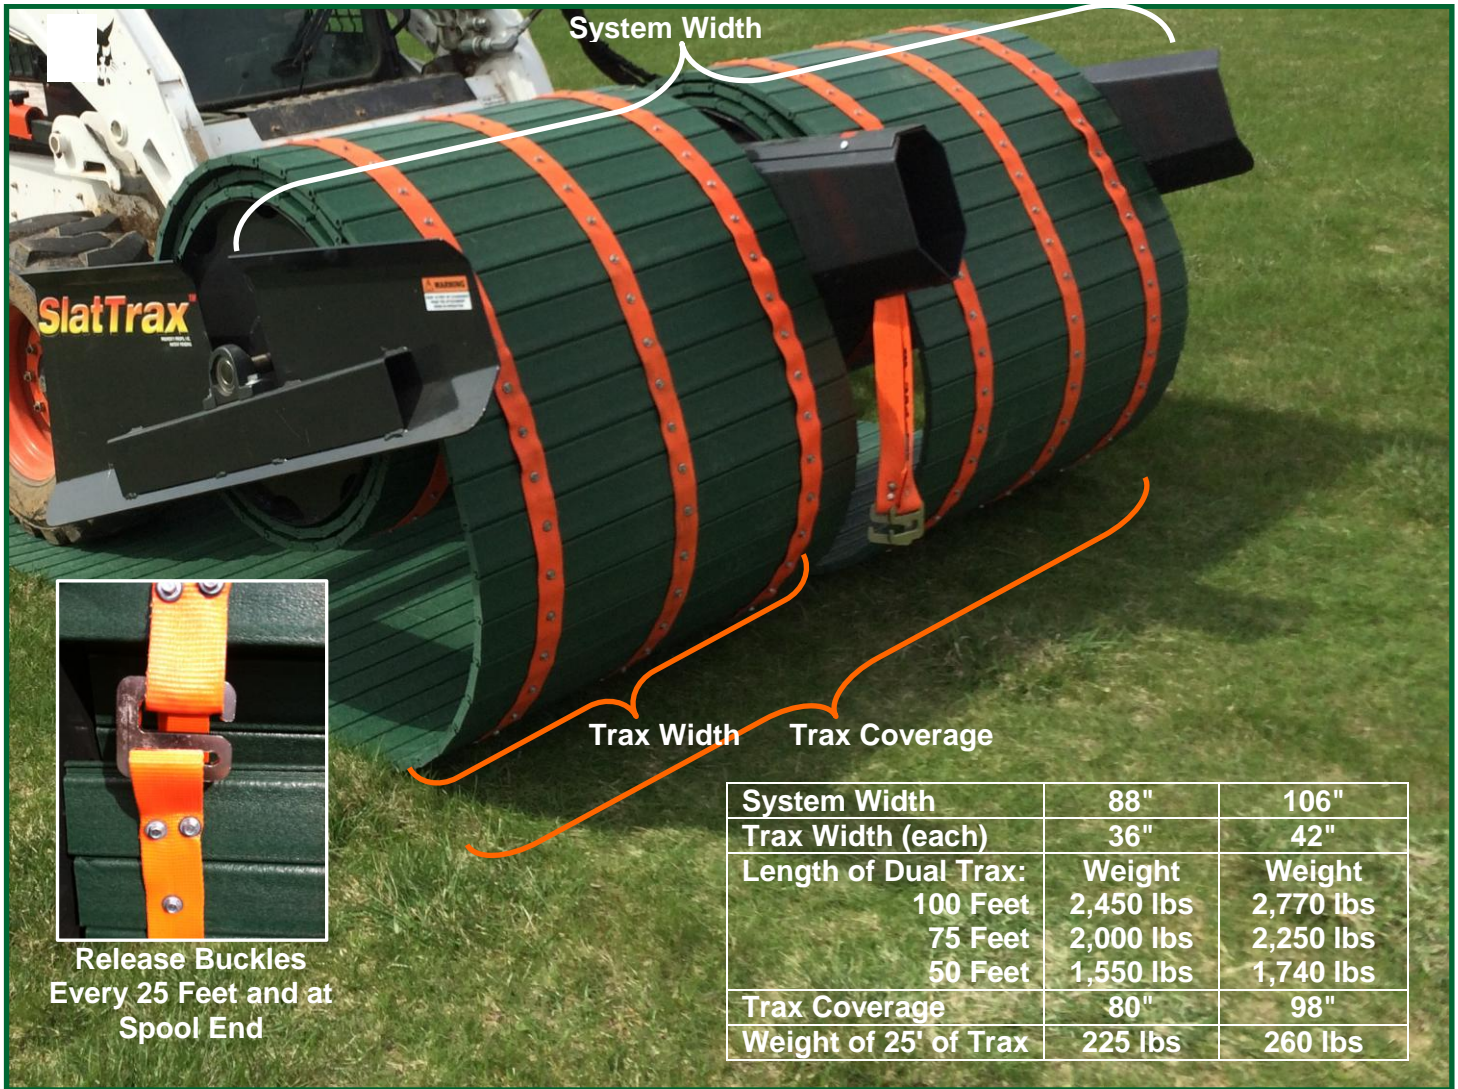

SlatTrax are exclusively manufactured for and marketed by Property Props, Inc. Plymouth, MN
