

Public Notice

NOTICE OF A ROUTINE MONITORING VIOLATION FOR CHLORITE

The City of Cisco, PWS ID TX0670001, has violated the monitoring/reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Texas Administrative Code (30 TAC), Section 290, Subchapter F. Public Water Systems are required to collect and submit chemical samples of water provided to their customers and report the results of those samples to the TCEQ on a regular basis.

We failed to monitor and/or report the following constituents: chemical results for chlorite

These violation(s) occurred in the monitoring period August 2019 & December 2019.

Results of regular monitoring are an indicator of whether or not your drinking water is safe. We did not complete all monitoring and/or reporting for surface water constituents, and therefore TCEQ cannot be sure of the safety of your drinking water during that time.

We are taking the following actions to address this issue:

The reports have been submitted to TCEQ, however, they were not submitted in a timely manner as required by Title 30, Texas Administration Code (30 TAC). Although the reports were submitted in an untimely manner, all data provided to TCEQ was within normal limits for treated water. All employees have been informed of the deadline for submitting timely reports.

Please share this information with all people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

If you have any questions regarding this violation, you may contact Randy Johnson at 254-442-2111.
