Empowering The Quiet Child

3rd - 8th

New Workshop. A parent's guide to understanding and advocating for their quiet child. Identify school and social situations that can stress a quiet child, like classroom, the cafeteria, the playground, taking a leadership role, social media. Come learn steps to take to help you child negotiate and thrive in these situations and more. Presenter: Laura Bonomo, PhD., Abridged Psychology

The Big "C" – Consent: Teaching Children Boundaries and Consent

6th - 12th

New Workshop. What is consent? How do kids give and get consent? How do they take away consent? Consent affects all aspects of one's life --- relationships, school, friendships, etc. Learn how to help your child navigate those situations and feel empowered in decision-making and finding their voice. Presenter: Michelle Raider, Cohen's Children's Hospital

New Diploma and Graduation Options for High School in NYS

6th - 12th

Learn more about the New York State Board of Regents' recently approved regulations establishing multiple pathway assessments to meet graduation requirements for all students. These multiple pathways allow for recognition of student interest in the following areas: Arts, Biliteracy, Career/Technical Education, Humanities and Science, Technology, Engineering and Mathematics (STEM). Presenters: Randy Young and Cathy Pantelides, Long Island Parent Center at LIU and RSE-TASC. First Session Only

LGBTQ+ and Everything Under the Rainbow

Pre-K - 12th

Back by Popular Demand: Participants will become familiar with terminology and understand more about transgender youth and other members of the LGBTQ+ community. Learn what it means to be an effective ally of those in the LGBTQ+ community. Learn to use this information to support your children, their peers, and each other. It is through dialogue and learning that we help build respect and support for all our children. Presenter: Jason Spradley. First Session Only

Soaring into STEAM: Fun Experiments for Children and Parents

Pre-K - 5th

Back by Popular Demand: Learn experiments and activities that you can do at home to help you child make connections between science, math, technology, engineering and art. Find out how to have "learning conversations" and spark the discoverer in your child. Take home some materials to continue the fun! Presenters: Long Island Children's Museum's Aimee Terzulli, Director of Education and Claire Flynn, Youth STEM Coordinator

STILL Vaping in the Bathrooms!

6th - 12th

Back by Popular Demand: Let's get real vaping, underage drinking, and gateway drugs to the opioid epidemic. Parents MUST know what is out there in order to educate and protect our kids. Presenter: Adam Birkenstock, LICADD
