

Welcome back to the next Program cycle of events sponsored by your local APICS Hamilton Professional Chapter. We are excited to get another year of events going and are looking forward to seeing you there.

I'm sure based on what has been happening globally over the past year there has been a lot of uncertainty in your supply chain – with elections, weather disasters, trade actions / disputes / restructuring, political unrest, etc. – it has been said that 2017 is a year of acute uncertainty.

How are you handling the RISK in your supply chain? Do you want to learn more about how you can manage it? If so, please join us for this event and learn more about risk management (and have some pizza too).

September 28, 2017 Professional Development Meeting

PDM Topic: Challenge Murphy's Law and Manage your Supply Chain Risks

There is nothing we can do to prevent natural disasters and / or unplanned external changes that will disrupt your supply chain,

However, as a Supply Chain Professional, you can leverage the APICS Body of Knowledge to develop a sound risk management that will give you peace of mind and keep your business running successfully?

This presentation will introduce you to what SCOR is and how you can use it to manage Supply Chain Risks with a proven framework. A framework that has helped industries worldwide to identify potential threats, assess risk impacts and then mitigate those risks?

Learn how to challenge Murphy's Law ... that says "whatever can go wrong, will go wrong".

Speaker: Jose Vazquez, CPIM, CIRM, CSCP, SCOR-P, CPSM

Jose is a seasoned Supply Chain Management / Portfolio Management Executive / IT Compliance and Risk Management with Nestlé Canada Inc.

He is senior-level professional experienced with twenty-year history delivering mission-critical strategies in multinational manufacturing and services industries, including Fortune 100's.

As a seasoned executive with in-depth understanding of Enterprise Resource Planning processes and associated technologies, he has international experience in industries such as: Consumer Packaging Goods, Tobacco, Electronic Contract Manufacturing, Pharmaceutical, and Energy.

Jose is highly-experienced in Enterprise Risk Management, Governance Risk and Compliance (GRC) frameworks such as: Sarbanes-Oxley, COSO, Swiss Code of Obligations, COBIT, ISO 27001.
