

AUGUST 2021

NEWSLETTER

In serving the child, one serves life; in helping nature one rises to the next stage, that of super-nature, for to go upward is a law of life. And it is the children who have made this beautiful staircase that mounts ever higher.

Packing Healthy Lunches from Home

When packing lunches at home, teach your child the importance of eating a variety of foods from each of the five major food groups. Since most children consume one-third of their daily calories at their midday meal, a nutritious lunch would typically include:

- One serving of fruit
- One serving of vegetable
- Two servings of grains (bread, cereals, rice, pasta)
- One serving from the meat group
- One serving from the dairy group

Referrals

One of the best compliments is referring new families to the school.

Refer a new full-time family and earn \$100 tuition credit, or a new part-time family and earn \$50 tuition credit.

Credit is applied after the new family has attended for 30 days.
