Tracking Tip of the Day;

When leaving a sock on hard surface for an Urban track, article, put a rock in it to keep it in place..... On a windy day, my sock was at least 60 m. from where I left it. It was only stopped by a fence or I wonder how much further it would have gone

Gone But Not Forgotten..... “Trust”

TCH.Carmspack Trust CD RN

She loved to visit old folks in a nursing home, we did this some years ago; you could see the smile on her face, as well as theirs.

She surprised me when she was introduced to sheep...as if she always knew what to do. That was something I wish we could have pursued.

Although she earned a CD and a RN, and we ‘played’ with some agility equipment, there was nothing more fun for both of us than tracking.

A big hole in my heart, but many, many, many wonderful memories of a very special girl,

You made my life interesting.
RIP you tough little fella.....

Grieve not, nor
speak of me
with tears, but laugh and
talk of me as if I were
beside you.
I loved you so...

‘Twas heaven
here with you.
