**BOIL WATER NOTICE
TO
THE RESIDENTS OF GIN POND SHORES**

May 4, 2022

The Town of Summerton advises the residents located at Gin Pond Shores, to vigorously boil their water for at least one (1) full minute prior to drinking or cooking. A water leak was located at Gin Pond Shores and repairs have been completed and bacteriological sampling is being performed. Once bacteriological samples that are collected by Water Systems, Inc. from the drinking water system serving the Gin Pond Shores area indicate that the water system is not contaminated, the boil water notice will be lifted. Residents should continue to vigorously boil their water for at least one (1) full minute prior to drinking or cooking until otherwise notified by the Town of Summerton. Also, any ice made from water which has not been boiled should not be used for drinking purposes. Water Systems, Inc. is presently working to correct the problem. If you should have any questions concerning this Notice, you may call the Town of Summerton.
