BIOGRAPHY

- DJ & MC
- Sound & Lighting
- Club Videos
- Radio Personality
- Mix-Show DJ
- Voice Overs

DJ KARZ is a consistent player in the Carolinas' music scene, and has been branching out to new regions through an impressive variety of media, and traveling performances. Always on the move, DJ KARZ keeps a busy schedule, including club and private events throughout the region, guest and residency appearances on FM Radio as an On-Air Personality and Mix-Show DJ, while also providing Voice-Over and Commercial Production services.

As a longtime member of DJ groups like USBDJS & Crown Town DJs, DJ KARZ has performed as an MC/Host, DJ and VDJ (Video DJ) for some of the Carolina's hottest nightlife venues, as well as running sound and providing PA Systems & Lighting for area night clubs and bars, private parties, corporate functions, weddings, bike and car shows, fashion shows, and live performance events.

With deep roots in music from DJ Career Days as a kid, making mixtapes as a teenager, and having the opportunity to live and socialize in different scenes around the country, DJ KARZ was influenced by Classic and Southern Rock, and the surge of Heavy Metal on the rock scene as a guitarist growing up, but was also drawn to the Bass, Beats, and Rhymes of the early days of Hip Hop. Later on, relationships enabled an opportunity to experience the NY Club scene and mixture of Electronic Music as well as the Hip Hop and Dancehall hot spots throughout the city and boroughs of NYC. DJ KARZ brings that well rounded experience and passion for music to every event, and offers a unique perspective when reading a crowd, as he takes them on a journey.

While capable of playing many genres and tailoring music to a particular event or venue, if you asked DJ KARZ what is favorite genre was, he'd probably say "Party Music" whether it was Rock, Top 40, Electronic/Club/House, Hip Hop, or Reggae/Dancehall it's all about the PARTY to DJ KARZ. In a recent interview he said "Keepin' people happy and moving is the main thing to me, regardless of what type of event it is, or what genre I happen to be playing at the time. Having people remember what a great time they had, and knowing you had a part in that, is what it's all about for me."
