

COMING MUSLIM-JEWISH WAR

A NUCLEAR CONFRONTATION IN THE MIDDLE EAST

The purpose of this illustration is to show that certain times related to particular Moon Phases have influenced military strikes in the Middle East. Israeli strikes on their Muslim enemy's nuclear facilities have been at precise Moon Phases in the past. If the pattern is reliable, then one can postulate that an imminent strike by Israel is soon to take place in like manner against Iran -given the pattern of strikes on Iraq and Syria. From the prior military campaign timing of the 'Strike Zone' this pattern could predict the possible timing as to when the next strike by Israel could happen. If not in the next window, then possibly one of similar configuration at a future date and time. In turn, inevitably it will lead to the coming Muslim-Jewish war. This coming war will be 1) regional 2) religious and 3) nuclear by some estimations. The mere fact is that it has involved the destruction of nuclear reactors in the past lends itself to such a probability. The Moon Phase and Strike Zone theories presented here are taken from facts and research already established from Israel's recent history. The information presented will only emphasize patterns and probabilities. What is different from these strikes is that they are dealing with high stakes potential nuclear weapons variables.

Judaism has to be destroyed according to Koran because it is tied to YHWH's promise of the Land and its Title Deed to be given to the descendants of Abraham but through Isaac, not Ishmael...through Jacob, not Esau. To have a State of Israel does not give Islam legitimacy. The mere fact that the Hebrew Nation was reborn on 1948 is a direct assault and affront to the tenants of Islam. YHWH in 1948 established Israel as it has Biblical legal claim to the Land. In Shi'ite theology, Israel can not be allowed to exist indefinitely because it would 1) validate the Jewish-Christian Bible, 2) it would mean Israel does have rights to the Land, (Palestinian Covenant), 3) Islam is not the religion of peace, 4) Mohammed is not a 'prophet' of God nor the Last.

SAMSON OPTION

A term used to describe Israel's alleged nuclear deterrence strategy of massive retaliation with nuclear weapons as a "last resort" against nations that are attacking them to the point of total destruction. It is taken from the *Judges 13-16* of the Bible. Currently Israel and Iran are in a 'Cold War' status.

A RELIGIOUS WAR

There is a lot of speculation if and when Israel will strike Iran's nuclear facilities with the intent of stopping the nuclear armament of Iran's armory. Iran has already successfully tests long range missiles capable of reaching Israel, Saudi Arabia and Europe. Up until such time, clandestine efforts have nonetheless occurred with sabotage even the internet level with

The Religious Nuclear Arms Race

- Israel struck 2 Muslim enemy nuclear facilities before, having destroyed one in Iraq 1981 and one in Syria in 2007 during specific Moon Phases.
- Israel struck enemy targets in either a 1) Waxing or 2) Waning Moon, as did the Arabs in Yom Kippur War of 1973, to attack Israel.
- There are 3 possible Strike Zone dates that fall on a Waning Moon from October to December and Waxing Moon from October to December
- The 'Red Line' policy of Netanyahu was initiated Fall 2012 with a possible postponement till a later time and place.

of the worlds oil passes through this Strait. When Iran will be provoked to possibly 'strike' 1st, it will cut off oil shipments. This will cause the barrel of oil to go above \$200+ and possibly cause Western economies to collapse & dollar to fall. The current trend is that oil is being bought and sold in non-Dollar currencies such as Brazil, Russia, India and China. (BRICS)
