

## ***Job Posting: Assistant Superintendent, Maple Creek Golf & Country Club***

Maple Creek Golf and Country Club is a private 18-hole golf course and social club in Indianapolis, Indiana. We are located just 15 minutes east of downtown off I-70. Built in 1961, we are historically known as Pete Dye's first 18-hole golf course design. In addition to being a challenging championship design, our staff and membership take great pride in preserving Mr. Dye's legacy on our grounds.

We are seeking energetic, highly motivated, and passionate individual who thoroughly enjoys Turfgrass Management. This individual would become the assistant of our current superintendent, who has over 30 years of experience and would work with them daily. They will be exposed to all facets of golf course maintenance including but not limited to course setup, fertilizer application, pesticide application, mowing, bunker maintenance, machine operation, irrigation troubleshooting and repair, chemical/fertilizer applications as well as calibrating and record keeping.

### **Education Requirements:**

- Currently pursuing, or graduated with, a degree in Turf Grass Management or related fields. Will consider extensive experience in green industry.

### **Experience Requirements:**

- Candidate must possess a positive attitude, strong work ethic, attention to detail, eagerness to learn and excellent organizational skills.
- A working knowledge of all golf course maintenance operations, pesticide and fertilizer applications, irrigation system operation and repair along with strong agronomic abilities.
- Innovative thinker and self-starter with perseverance to work on a team to succeed.

### **Job Summary**

The Assistant Superintendent will work closely with and report directly to the Superintendent. The assistant will be involved in all facets of course maintenance.

**Essential Duties and Responsibilities** include the following but not limited to:

- Assists Superintendent in all facets of daily operation
- Acts as Superintendent on duty in the absence of the Superintendent
- Maintains the appearance and safety of the course by diagnosing and reporting agronomic issues; managing irrigation system adjustments and scheduling; maintaining a wide variety of turf grasses in extreme climatic conditions; managing course preparations for tournament and daily play; operating various hand and power tools as needed to accomplish mowing, edging or cultivation as needed; development and implementation of pesticides and fertility program, irrigation programming and repairs, drainage projects, new tee construction and renovation, record keeping and reporting.

### **Compensation:**

- A full compensation package will be presented during interview process. This compensation package will be competitive with-in the current industry standards and will be gauged upon applicants qualifications and industry experience.

### **Benefits:**

- Eligible for Medical / Vision / Dental insurance per company policy
- Eligible for 401k per company policy
- Golf privileges
- In season lunches
- Vacation allowance per company policy
