

Diversity

**Managing a Diverse Workforce:
Problem or Opportunity?**

Diversity is a cutting-edge issue. Our society affords us opportunities to interact with people different from ourselves. This challenges our attitudes and behavior and it impacts workplace productivity. Participants will explore their viewpoints on workforce diversity. Knowledge, understanding, acceptance, and behavior are addressed as individuals move toward acceptance, cooperation and respect. The *Discovering Diversity Profile*[®] is used. This seminar will help prepare participants to take advantage of the opportunities inherent in a diverse workforce.
