

Here's what our customers have to say about Power One

Lil Italy Bistro

Good Evening;

I just wanted to touch base with you two;

I want you to know how happy I am with this system "Touch bistro" It does for me exactly what it is ment to do and made running my restaurant so much smoother and stress free. I can't believe how much added stress the old system put onto me and my staff until I switched to this system. I can't wait to be able to switch to "KDS" in the kitchen [Smiley emoticon]

Thank you so much for all your help and 100% SUPPORT

Scott Simone Owner

Cork and Barrel

Alicia Bird — 5 star Michael and Brenda, thank you so much for all of your help and support with Power One/Touch Bistro we could not have done it without you.

Touch Bistro is amazing and easy to use, we love it!! Being in the bar/restaurant business for years this system far exceeds any other I have used, being able to take it to the table is priceless for our staff. Both on a business and professional level you have both been an incredible support for The Cork and Barrel Lounge. Thank you so much!!

Alicia Bird General Manager-Cork and Barrel Lounge
Richard Howard Owner

Cross Town Pub & Grill Naperville, IL

"After narrowing down to a shortlist of four we chose TouchBistro. Not only has it revolutionised our system, it is so flexible to our changing needs, and gives our business a truly modern cutting edge with our technology."

Speed up service, turnover tables quicker and create a customer experience that is unmatched.

"During our highest periods, we are able to turnover 176 more tables, which equates to at least \$2000 a night...x4 different nights...you do the math!"
