**BETTER**  
Advanced Shading

A brand of **legrand®**

### Advanced Technology

- Patented all-in-one design
- No unsightly wires
- Easy to program and easy to install
- Patented manual override system
- Patented counterbalance system
- Industry-leading half-inch light gaps
- Many control options: phone, tablet, remote, and manual
- “Whisper” quiet motors

### Luxurious Features & Decorative Fabrics

- Large fabric collection of light-filtering, decorative, and beautiful, room-darkening materials
- Get the best of both worlds: Choose a blackout and a decorative fabric for a dual shade system
- Choose from painted and fabric-wrapped fascia to conceal shade tube and brackets

### Solutions to Fit Your Needs

- Multiple shading systems that meet the needs of the installer
- Narrowest and largest battery-operated shades: From 15.5” all the way up to 144” x 144”
- Our Qadvanced systems are fully integrated into home automation systems including Vantage, Control4, Elan, Savant, RTI, Control Works for Crestron, and more
- For wired jobs where energy consumption is a concern, try our award-winning hardwired QIS system
- Our Qadvanced shades are the only shades in the market with ZigBee HA1.2 capabilities built into the motor; no external dongle needed.

### Safe by Design

- Made “Safe by Design,” QMotion is an industry leader in safety standards, as all of our Qadvanced motorized roller shades, Honeycomb shades, and Qfree manual shades are cord free
- WCMA Best for Kids Certified

## You are in control

### Qadvanced Shades with ZigBee Home Automation V1.2

- Robust, 2-way ZigBee communication
- Positioning feedback and battery level alerts with automation apps
- Same installation aesthetic as our QIS wired system, so brackets and fascia can match
- Ideal for retrofit installations

### Qadvanced Intelligent System Hardwired Shades

- Use standard CAT-5e or CAT-6 cables for both power and communication
- Industry-leading minimized power consumption
- Support up to 200 devices
- Wiring adapter for non-QMotion pre-wired installs
- Four control options: ZigBee HA1.2, hardwired wall switches, smart device, and patented manual override
- Compatible with pro-level integration systems, with bi-directional communication to report shade positions

### Qadvanced Battery-Operated Shades with GEN 3

- 3rd-generation QMotion proprietary protocol
- Great for stand-alone applications
- Gen 3 Qsync for smart-home integration
- The QMotion App is available on your iOS or Android smart device
