A. Community and Cultural Services. Establishments primarily engaged in the provision of services that are strongly associated with community, social, or public importance. Examples include libraries, museums, art galleries, senior centers, community centers, performing arts theaters, and community clubs and organizations.

Level 1: Establishments which do not exceed five thousand (5,000) gross square feet.

Level 2: Establishments of between five thousand (5,000) and twenty thousand (20,000) gross square feet.

Level 3: Establishments which are larger than twenty thousand (20,000) gross square feet.

B. Daycare Facilities. The use of a building, or any portion thereof, for the regular care of individuals needing supervision and care on a less-than-around-the-clock basis. The term shall also include facilities commonly known as day care facilities, day care centers, and preschools, but not pet day cares, which shall instead be treated as a Pet Sales and Services Commercial use type. All are subject to compliance with all appropriate federal, state, and/or local licensing requirements and the specific standards set forth in LMC 18A.70.100, Daycare Facilities.

Level 1: Home-based day care for up to twelve (12) children or adults.

Level 2: Daycare centers serving children or adults that provide services for periods of less than twenty-four (24) hours that are not based from a home.

C. Education. Educational services provided by public, private, or parochial institutions. Examples include grade schools, community colleges, public and private colleges or universities.

Level 1: Primary and secondary educational facilities such as kindergarten, elementary, middle schools, junior high schools, and high schools.

Level 2: Higher educational facilities such as community colleges, colleges or universities.

D. Essential Public Facilities. Under the state Growth Management Act, essential public facilities include those facilities that are typically difficult to site such as airports, state education facilities and state or regional transportation facilities as defined in RCW 47.06.140; state and local correctional facilities; solid waste handling facilities; and in-patient facilities including substance abuse facilities, mental health facilities, group homes, and secure community transition facilities as defined in RCW 71.09.020. For the purposes of and within this title, essential public facilities are treated as listed or substantially similar to listed use types, thereby affirming their siting in appropriate areas; except as applied to public lands, where they are liberally construed to include a broad array of public services. Essential public facilities do not include wireless telecommunications facilities.

E. Government Administration Facilities. The executive, legislative, judicial, administrative and regulatory activities of local, state, federal, and international governments or special districts that may perform public services and work directly with citizens. Examples include courthouses, armories, human and social service offices, health offices, and government offices.

F. Health Services. Any health-related facilities and services that are not listed elsewhere such as hospitals, day surgery facilities, medical facilities providing round-the-clock walk-in services, and blood banks.

G. Military Installations. A governmentally owned or controlled property and facilities which support a range of uses to facilitate military operations in a "compound" setting, as distinguished from stand-alone facilities such as recruiting stations. The autonomy associated with governmental ownership or control of the property, in combination with the unique character of the military operations and support structures, are not typical of civilian uses.

Level 1: State installation owned or controlled by the Washington State Military Department.

Level 2: Federal installation owned or controlled by the U.S. Department of Defense.

H. Outdoor Recreation. Recreational areas and recreation facilities which primarily are owned or operated by public or non-profit entities for the use and enjoyment of the general public. Examples include neighborhood parks, community parks, regional parks, waterfront parks, open space, arboretums, small or special landscaped areas, community and "pea patch" gardens, fairgrounds, zoos, and swimming pools. In some cases, such areas and facilities may be incidental to private development, such as open space set-asides necessary for environmental mitigation and children's play areas ("tot lots") within a subdivision; are intended to be principally used by a finite group; and may constitute private property.

Level 1: Natural open space and passive recreation. Protected open space areas in a natural state, together with low-impact passive recreational facilities including single-track hiking trails, beaches, viewing areas, interpretive signage, and fences.

These use types do not include homeless shelters, food banks, or other social services, which shall instead be treated as a Social Services Civic use type; daycares or preschools, which shall instead be treated as a Daycare Facilities Civic use type; schools, which shall instead be treated as an Education Civic use type; or facilities for residence of religious orders, which shall instead be treated as a Co-Housing Residential use type.
