

Mason Creek Hike & Bike Trail Extension Petition: <https://chnq.it/MTgKKSwp> or scan the QR code at the top right of the map below.

Harris Co. Pct. 4 is considering a grant application in April, 2022 to obtain funding to construct this 3.15 mile trail extension that would include connections to the new Houston Community College & University of Houston Katy campuses, Katy Asia Town, the METRO Grand Parkway Park & Ride as well as several other destinations in the area. This would connect to the existing Mason Creek trail near Rudy's BBQ, near I-10 & Mason Rd. with over 30 miles of connected and continuous trails, including George Bush Park, Terry Hershey & Cullen Park. The trail would include underpasses of I-10 & Colonial Pkwy and two bridges over Mason Creek. Starting at the south side of I-10, the trail would follow Mason Creek northwest to the new HCC campus, then jog south to the north side of Colonial Pkwy, continue west, then run NW of the H Mart and south along the west side of the Grand Pkwy/99 to the METRO park & ride. The map in this petition shows the proposed trail route in red.

The projects that secure funding have to show significant public support. If you would like to see this trail built, please sign this petition.
